The above-referenced Bates stamped documents ("Confidential Material") are deemed by Intercontinental Exchange, Inc. ("ICE"), on behalf of the New York Stock Exchange LLC, NYSE MKT LLC, NYSE Arca, Inc., and NYSE National, Inc. (collectively, the "Exchanges"), to be highly confidential and confidentiality therefore is being requested under the Freedom of Information Act ("FOIA"), 5 U.S.C. 552, the Commission's rules and regulations thereunder (e.g., 17 C.F.R. 200.83(c)) and other applicable statutes or regulations. We request that the Confidential Material be kept confidential for a minimum of 3 years from the date of submission (until JUNE 23, 2020) to ensure that the financial information contained therein is considered sufficiently stale and therefore could not create competitive harm, disadvantage the Exchanges, or be misconstrued to the detriment of the Exchanges and/or public. Because these Confidential Materials constitute financial information which are privileged or confidential, they are subject to the exemption from mandatory disclosure found in Section 552(b)(4) of FOIA ("FOIA Exemption 4").

FOIA Exemption 4 protects information "which is (a) commercial or financial, and (b) obtained from a person, and (c) confidential or privileged." *Landfair v. Dep't of the Air Force*, 645 F. Supp. 325, 327 (D.D.C. 1986). Because there is little question that the information in question is financial or that it was received from a person, the central inquiry of Exemption 4 is the confidentiality requirement. The courts have fashioned two alternative tests to determine whether commercial or financial information is confidential. Commercial or financial information is considered confidential "if disclosure of the information is likely to have either of the following effects: (1) to impair the Government's ability to obtain necessary information in

the future; or (2) to cause substantial harm to the competitive position of the person from whom the information was obtained.” *Nat’l Parks Conservation Ass’n v. Morton*, 498 F.2d 765, 770 (D.C. Cir. 1974) (“National Parks I”) (footnote omitted).

Under the second test, “it is not necessary to show actual competitive harm.” *Gulf & W. Indus., Inc. v. United States*, 615 F.2d 527, 530 (D.C. Cir. 1979). Rather, “[a]ctual competition and the likelihood of substantial competitive injury is all that need be shown.” *Id.* (emphasis added). Further, there is no need to marshal detailed economic analysis, such as might be required in an antitrust setting, to demonstrate the prospect of competitive harm. *Id.* at 530; see also *Nat’l Parks & Conservation Ass’n v. Kleppe* (“National Parks II”), 547 F.2d 673, 680 & n.24 (D.C. Cir. 1976). Indeed, competitive injury may be premised upon a reasonable inference, derived from the nature of the material requested and the competitive circumstances involved, that competitors could make affirmative use of the requested material to the detriment of the submitter. See *National Parks II*, 547 F.2d at 683-84. Such competitive harm may result from the use of such information either by direct competitors or by persons with whom one is negotiating. See *Am. Airlines, Inc. v. Nat’l Mediation Bd.*, 588 F.2d 863, 868 n.13 (2d Cir. 1978).

For example, in *National Parks II*, the Court of Appeals held that it was “virtually axiomatic” that disclosure of detailed financial records would cause substantial competitive injury. *National Parks II*, 547 F.2d at 683-84. The court recognized that the release of financial statements could result in a number of competitive harms. Competitors could use the information to determine costs, revenue, and operating margins. In turn, the competitors could use this information to undercut those prices. See *id.* Other courts have reached similar conclusions, shielding financial statements from release because of the inherent competitive harm that would be caused by their disclosure. See, e.g., *People for the Ethical Treatment of Animals v. U.S. Dep’t of Agriculture*, No. 03-C-195-SBC, 2005 WL 1241141, at *8 (D.D.C. May 24, 2005); *Judicial Watch, Inc. v. Export-Import Bank*, 108 F. Supp.2d 19, 29 (D.D.C. 2000).

The release of financial statements also can serve as a blueprint to competitors who want to mimic a successful business. Specifically, courts have recognized that selective pricing, market concentration, expansion plans and possible take-over bids would be facilitated by knowledge of the financial information contained in the detailed financial statements. *National Parks II*, 547 F.2d at 684.

National Parks II also made it clear that the exemption was intended to prevent the fundamental unfairness that can result from one side to a transaction having confidential information about the other in a business context. Cf. *id.* at 678 n.18. See also *Am. Airlines, Inc.*, 588 F.2d at 868 n.13. Access to a company’s detailed financial information would allow competitors, customers, and employees alike to bargain for better prices, wages or interest rates, while the submitting company’s unregulated competitors would not be similarly exposed. *National Parks II*, 547 F.2d at 684; see also *People for the Ethical Treatment of Animals*, 2005 WL 1241141, at *8 (withholding financial information over concerns that “breeders would gain a strong competitive edge in the negotiating process”).

As in the cases discussed above, the Confidential Information, which is comprised of financial statements and balance sheets, could be used by competitors of ICE and the Exchanges to gain a competitive advantage in multiple ways.

First, competitors of ICE's other business lines could use this information to determine prices and operating margins, and in turn use the information to undercut those prices or exploit operating margins. *See, e.g., National Parks II*, 547 F.2d at 684; *People for the Ethical Treatment of Animals*, 2005 WL 1241141, at *8. ICE owns and operates numerous entities engaged in varied business activities including the operation of futures trading, clearing, pricing and trading analytics, and market data services to support the trading, investment, and risk management needs of customers across virtually all asset classes. The Confidential Information for these ICE entities could be used by competitors such as CME Group, Inc. ("CME Group"), Nasdaq, Inc., and Bloomberg to directly engage in price undercutting and as a result cause competitive harm to those subsidiaries.

For example, CME Group is a direct competitor to ICE and ICE's subsidiaries in the futures trading, clearing, and market data industry. CME Group could use the Confidential Information to derive the business performance of those subsidiaries and then use the information to set pricing on its competing products, including agricultural and energy commodities and currency and equity index contracts. For instance, the Confidential Information discloses specific entities operating revenues, operating income, and operating margin. Whereas the ICE publicly filed financial statements do not separate out such results for each subsidiary. As a result, the Confidential Information would provide CME Group, a direct competitor, insight into the specific business performance of competing subsidiaries that offer competing products, including operating margins. ICE does not have access to similar information regarding CME Group, putting ICE at a competitive disadvantage.

Second, competitors could use the Confidential Information to gain an unfair advantage by having insight into the best and worst performing subsidiaries and business lines. *National Parks II*, 547 F.2d at 683-84. It could then mimic and encroach upon ICE's expansion into certain businesses lines. For example, competitors could derive from the Confidential Information where ICE makes a substantial portion of its profits and therefore could use that information to move into those businesses. Disclosure of the Confidential Information also provides insights and information about experimental business lines that could reveal ICE's confidential business or expansion strategies to competitors who plan to enter the field after seeing cost and revenue information. Further, competitors could use the information to target employees of certain subsidiaries to hire them away from ICE.

Third, customers could use the operating margin or profits of certain business lines contained in the Confidential Information to put pricing pressure on ICE to lower its prices or decide to move their business somewhere else, which would put ICE at a competitive disadvantage. Specifically, the Confidential Information would provide competitors with information on the ICE subsidiaries engaged in business areas such as Pricing Analytics, Market Data, Futures and Clearing, and Credit Execution without ICE having access to comparable information for those competitors in those business arenas. Similarly, the unequal information

would allow any party to improve its negotiation position against ICE and its subsidiaries, enabling them to bargain for better prices, wages, or interest rates. Meanwhile, ICE's unregulated competitors would not be similarly exposed.

Fourth, the fact that the SEC requires the Confidential Information to be unconsolidated standalone financials for every subsidiary means that ICE shareholders will have access to immaterial financial information and could come to an incorrect conclusion about the information. For example, although the stand-alone financials for a given subsidiary are accurate, a shareholder could be confused by items such as intercompany loans between two subsidiaries. Without seeing the consolidated effect, the investor could incorrectly interpret a loan as a loss or asset.

Similarly, media sources could publish speculative or negative stories based on incorrect interpretation of the unconsolidated stand-alone financials, which could then have a negative impact on ICE's stock price. Such an effect would not only put ICE at a competitive disadvantage by impeding ICE's ability to use its stock for acquisitions but it could also harm ICE's shareholders.

Fifth, activist investors could misuse the information from the Confidential Information, putting ICE at a competitive disadvantage to other public companies that do not have to disclose financial information similar to that found in the Confidential Information because it isn't material to the business of the public company.

For all the foregoing reasons, the Exchanges requests that the Commission determine to protect the confidentiality of the Confidential Material and the information contained therein.

We consent to the release of the Confidential Material for official purposes to any member of the Commission, its staff, other government agencies, offices or bodies, or Congress.

Should the Commission receive any request for these documents from any third party not a member of the Commission, its staff, other government agencies, offices or bodies, or Congress, either pursuant to FOIA or otherwise, we request that we are given an opportunity to object to such disclosure. Furthermore, should the Commission be inclined to disclose these documents to any third party that is not a member of the Commission, its staff, other government agencies, offices or bodies, or Congress, we request that, in accordance with normal Commission practice, the Commission will provide ten business days' advance notice of any such decision. See, e.g., Chrysler Corp. v. Brown, 441 U.S. 280 (1979).

In that event, we request that the Commission immediately telephone and provide a written copy of such notice to Martha Redding, Associate General Counsel, New York Stock Exchange, 11 Wall Street, 19th Floor, New York, New York 10005, (212) 656-2938, martha.redding@theice.com, so that further substantiation of this confidentiality request may be submitted.
