**PUBLIC NOTICE OF DEFICIENCY ON BEHALF OF THE PEOPLE COUPLED WITH INTEREST IN THEIR WELL-BEING AND IN EQUITY**

Dear SEC, IRS, AND ALL OTHER FEDERAL AGENCIES WITH VESTED INTEREST,

*I, as an agent of the People, hereby issue this PUBLIC NOTICE OF DEFICIENCY ON BEHALF OF THE PEOPLE COUPLED WITH INTEREST IN THEIR WELL-BEING AND IN EQUITY. This document acknowledges that the government is given the obligation and holds the sole Duty of Protection to the People, and I, as Agent for the People take interest in the concern for their well-being, and, I express the concern for the well-being of the People by charging you with the convictions of your Duties as your One True Task as it always was and always is: acting in the interests of the American People and their most well state of being. You are hereby notified, made fully aware of, and held accountable for deficiencies in the Performance to which the Obligation of your Duty COMPELS YOU.*

**Notice:** A citizen is one with a Duty of Allegiance in **equal reciprocation** for a Duty of Protection. A Duty is a Self-Fulfilling Right. Please reconsider your proposed actions to not be in opposition, through your performance or your intentions, to your Administrative functions.

...

**Identification of Deficiencies:**

**EXPANSION OF "SECURITIES":**

- By expanding the reach of its definition, the rule also creates grounds for it to be tried accordingly.
- Leads to potential cases "thing" one thing could be tried as some other "thing" when it may not be that.
- Creates the potential for abuse or exploitation; possibly extortion and many other malicious acts.
- Unlawful conversion of private property; for example: an asset becoming a liability is not protection.

**UNFAIR DISTRIBUTION OF LIABILITY AND RISK IS CREATED:**

- An individual is a unique amongst the other forms of "legal persons".
- The means and mechanisms of interface and of experience for individuals is variable-dependent.
- The means and mechanisms of interfacing (B2b, B2C, etc) is standardized.
- All other entities known as "Legal Persons" are exponentially more resilient to this because of these standards (risk implementation, compliance, etc).

**CONFLICT OF INTERESTS AND AFFORDANCE OF PROTECTION:**

- Are all entities defined as "legal persons" considered citizens if they pledge their allegiance?
- In what form must this Pledge of Allegiance be? The Individuals as the People hold that it is what we were taught to recite, the mindset it instilled – and behavior fostered from something unspoken.

- Current proposed rules reveal tendency of preference – some "legal persons" easily afford more legal protections, risk implementations, meeting compliance standards can create policy changes which translates to altering of behavior for an individual but no other entity possesses this capacity.
- The cost of equal amounts of protections isn't feasible to most individuals – they bear this cost on their own.
- Current Rule fails to account for the aspects not visible at the points of minimum contact but aspects that are foundational to the underlying dynamic interface of commerce. For example, the Individual experience is a derived aggregate of many aspects of itself: degrees of happiness, the drive created by stress or for survival, and many other experiential factors that do directly respond to the same interface they affect. These factors simply do not situate themselves neatly and some possibly entirely absent in the realms of any other type of "legal persons" – an LLC, or Corporate body, and others need not change course in some existence outside of its presence in commerce to be compliant of adopt measures for risk

implementation; a policy may change but consider the group of individuals that make up the entity still need to make small talk around the coffee maker.

...

**Instructions for Internal Auditing of Proposed Rule:**

- Please locate all available obligations associated with the accounts mentioned and any other account with available outstanding obligations designated specifically for Debt Reduction.
- Determine the total amount of obligations to be redeemed based on the available balance in these accounts and any other relevant account for the specific purpose of reducing the Public Debt.
- Initiate the redemption process for all identified obligations.
- Provide necessary instructions to ensure a smooth redemption process, including any required documentation and coordination with relevant parties.

...

**Government's Duty of Protection:**

This PUBLIC NOTICE OF DEFICIENCY AND PATH OF REDEMPTION ON BEHALF OF THE PEOPLE COUPLED WITH INTEREST IN THEIR WELL-BEING AND IN EQUITY, now given to you as obligation, reaffirms the sole Duty of Protection owed by the government to the People of the United States. It is the responsibility of the Government, acting on behalf of the People, to diligently manage the choices and decisions made and take measures to alleviate any burden or harm - it is not the Government's nor it's Agencies' place to inflict it. The People, who entrust the Government with their Protection, have a **legitimate expectation** that the Government will act in their best interests. As their Agent, with interest as concern for their well-being, I am issuing this PUBLIC NOTICE OF DEFICIENCY AND PATH OF REDEMPTION ON BEHALF OF THE PEOPLE COUPLED WITH INTEREST IN THEIR WELL-BEING AND IN EQUITY to emphasize *my interest is my concern for the People and the People's concern is to remind the Government of its sole Duty to Protect is for the benefit of the People.*

...

**Further Instructions:**

In addition to the identified obligations and discrepancies created by the Current Rule it is hereby ordered that the agency use all means necessary and time needed as they are provided freely and at will to fulfill your Duty of Protection of the American People - this is the Obligation of your Duty as Administrators of Government functions. Please conduct a thorough review and investigation of Current Rule and all related proposals. Until these discrepancies are resolved, let it be known that no Individual amongst the American People can be held liable for outcomes or matters arising from nor subject to the Current Rule and it's proposed regulatory consequences as they are in direct opposition to your Duty to the Individual. Collectively, the People do hold that they have fulfilled their Duty to their Government and expect these measures to be followed through wholly in equal reciprocation form Allegiance pledged.

It is essential to ensure that all available time, methods, understanding, tools, and additional feedback be utilized to regulate this novel and emergent ecosystem such that it and all participants can safely thrive. Coordinate with other relevant departments or agencies as necessary to obtain necessary information for this internal process.

*Action confirms the fulfillment of your Duty; inaction will confirm to the People your impersonation of a government agency.*

Sincerely and with Highest Regards,

By Order Of **JUSTIN ALAN WILSON**

By **Justin** of the **Wilson FAMILY UCC 1-308**

*AUTHORIZED AGENT*

*The Father, the Son, and as the People are my Witness.*
