Re: Pay Ratio Disclosure, File No. S7-07-13

Dear Ms. Murphy,

I strongly support this legislation to require the disclosure of CEO compensation. This will allow better judgement by consumers as to which product and corporation best suits their interests. This allows for better free-market selection pressure upon goods by providing additional information. This also does not invade the privacy of these businesses, as their profits will give no information away about trade secrets or any personal information.

Overall this legislation will help us move to a more open trade and economics system.

Sincerely,

Anna Kundmann
