Re: Pay Ratio Disclosure, File No. S7-07-13

Dear Ms. Murphy,

I very strongly support the regulations that would require ALL publicly-traded companies to PUBLICLY disclose CEO-to-median worker pay ratios. As income inequality reaches unprecedented height, we have the right to know which corporations are fueling the yawning gap between rich and poor.

Public disclosure of CEO-to-worker pay ratios are also crucial for investors. This is the most important information for determining whether corporations are diverting resources to executives at the expense of long-term investments and workforce development. Additionally, investors must be able to gauge whether executives' compensation is even remotely connected to their performance.

Devaluation of the contributions of workers and extreme inflation in the value of CEO contributions is perhaps the most destructive guiding principle ever to be reintroduced in this country. Please ensure that the consequences of this practice are exposed for everyone to see.

Sincerely,

Pam Halsey
