Re: Pay Ratio Disclosure, File No. S7-07-13

Dear Ms. Murphy,

This is the best news I've heard in a long time. CEOs have been making something like 250000 times what their employees make all over this country. But the thing is, they're certainly not working 250000 times harder than their employees. This has been going on too long and hopefully shining some light on the issue will begin to undo this egregious disparity.

Sincerely,

Katrina Terlikosky
