Re: Pay Ratio Disclosure, File No. S7-07-13

Dear Ms. Murphy,

I strongly support regulations that would require publicly-traded companies to disclose CEO-to-median worker pay ratios. As income inequality reaches unprecedented heights, its time to stop it. This is just a small action toward this problem. It needs to start with the greedy people who need to appreciate their luck/wealth and understand that others deserve it too! Once someone has a nice home, clothes, car and some money in the bank, I don't understand why they think then its right to have 3 cars, an RV, boat, beach house, mountain house, jet, etc all before you pay people a fair living wage. What the hell? Capitalism wasn't meant to be at the cost of others. Its about freedom of course, but not on the backs of other hard working Americans. Its important to share the wealth that was made by those that helped them get there. Its really shameful, unChristian like and it really needs to addressed and equaled out somehow! Get back to employees being vested in the company they work for is the best business plan!

Sincerely,

Dani Green
