You never know what they might do. It is a big uncertainty.

11. What else would you like us to know – positive or negative - about your experience with online trading and investing?

It is very bad when you can not direct your order to a lit exchange. It is pure exploitation of retail orders to direct it around as brokers and market makers wish. It is also very obvious that certain HF and MM are circumventing the rules for naked shorting. If you are not enforcing the rules then no one will stop them from keep destroying companies and steal money. Just saying it is bad is not really helping, you need to act and stop this now or people will think the SEC does not care. This is extremely urgent and can not continue happening, do something now!
