Ms. Vanessa Countryman Secretary Securities and Exchange Commission 100 F Street, NE Washington, D.C. 20549

Re: The Enhancement and Standardization of Climate-Related Disclosure for Investors Attention: 87 FR 21334; Docket ID: SEC-2022-06342; File No. S7-10-22

Dear Ms. Countryman:

Enclosed are 64,357 petition signatures supporting the Securities and Exchange Commission's ("the Commission's") proposed rule on climate-related financial disclosures that would provide investors with the long-awaited and necessary information they and their investment advisors need to make informed investment decisions.

Given the Commission's mandate to promote a market environment that is transparent, fair, and worthy of the public's trust, 23 organizations reached out to retail investors, as well as other market participants who may in the future help facilitate capital formation, through an online petition to give them the opportunity to comment on the proposed rule.

The petition garnered 64,357 signatures from individuals in support of the rule, 9% of whom, through a follow-up survey, self-identified as investors with one or more of the following: 401K, IRA, pension, and/or own stocks and/or bonds.

The petitioners urged the Commission to require Scope 3 greenhouse gas emissions disclosure from *all* registrants and to include in the final rule disclosures around environmental justice, Indigenous rights, a just transition for dislocated workers, and community-level impacts.

Please note that some comments were edited for brevity and names of the petition signers have been redacted to protect individuals' privacy and their personal investment decisions disclosed.

Empty rows in the petition signatures reflect individuals who signed the petition but only provided their first and/or last name and email. Data available upon request.

The full petition text reads as follows:

To the Securities and Exchange Commission and SEC Chair Gensler:

Investors—including working people like nurses, teachers, and firefighters who have a retirement plan like a 401K, pension, or IRA—and their investment managers need access to standardized, comparable information about public companies' vulnerability to climate change, their current greenhouse gas (GHG) emissions, and their plans to manage climate risks and make good on their public climate commitments.

The current practice of permitting companies to voluntarily choose what and how they want to report, and even whether or not they want to disclose their climate-related financial risks, makes it impossible for investors and other market participants to fully understand and compare the risks and opportunities associated with different investments.

That's why we support the Securities and Exchange Commission (SEC)'s recent proposal (87 FR 21334; File No: S7-10-22) to require public companies to make standardized, mandatory disclosures about their climate-related financial risks within annual SEC filings.

We support the inclusion of Scope 1 (business operations) and Scope 2 (purchased energy) GHG emissions reporting, in absolute and intensity terms. We strongly encourage the SEC to strengthen the final rule by requiring Scope 3 GHG emissions (e.g., product and supply chain emissions) disclosure from all large registrants, and to include disclosures around environmental justice, Indigenous rights, a just transition for dislocated workers, and community-level impacts.

This proposal is a vital step forward to fix a broken system of inadequate, not comparable, voluntary climate risk disclosure. It will protect investors, encourage prospective retirement savers to invest in the U.S. capital markets, and provide market participants with the climate-related information they need to accurately price climate risk and make well-informed investment decisions.

The petition and survey show that retail investors firmly believe that the SEC has the authority and responsibility to require standardized disclosure of climate risks and opportunities as part of its mandate to protect investors.

We thank the SEC for issuing this thoughtful proposal, and urge you to take into consideration the impact this rule will have on retail investors and their investment advisors.

Sincerely,

Americans for Financial Reform

The investor has the right to decide how to value the future health not only the investor, but the environment. The investor has the right to prohibit use of funds that violate the investors values and not prioritize the short term monetary gains the majority of which accrue to company management and majority, controlling share holders. Any investment vehicle that deprives the individual investor of this power is wage theft, a violation of individual speech and property rights. Any employer which requires mandatory participation in any retirement instrument that investments in these companies AND any government debt instruments that exist only to subsidize tax breaks for the wealthy at the expense of the future government efficacy should be, for the same reasons, illegal. Employers should be required to fund Social Security and retirement plans in which the individual and no one else decides where the money goes.

92	TX	401k			Stocks		As a consumer and an investor, I want to be able to make informed choices with my money. Since it has been ruled that spending money is a form of free speech, I think that it's very important that we have access to information to allow us to use that speech in a way that is inline with our values.
93	CA	401k	IRA	Pension	Stocks	Bonds	As a CPA (inactive) I have seen first-hand the importance of mandated, standardized information about company risks. Without such information, as an investor, I am unable to compare companies to make informed decisions about my capital allocations. This is no different than common-sense disclosures around money laundering, supply chains, compensation, etc.
94	FL	401k	IRA	Pension	Stocks		As a disabled woman who retired in my 40's due to my disability, I deserve to know the risks that my investments have due to climate change and this disclosure is important to me.
95	MD		IRA				As a future parent and a teacher, the planet we're giving to the next generation is constantly on my mind. It is essential to me to know whether the companies I support share this goal or are trading our long-term future for short term gain.
96	НІ		IRA		Stocks	Bonds	As a long term investor(more than 50+ years), it has ALWAYS been my practice to pick those that DO NOT HARM THE CLIMATE/ENVIRONMENT. This is more crucial now than ever before!!
97	NC	401k	IRA		Stocks	Bonds	As a long-term investor, climate change is the biggest risk I see. Climate risks (e.g. extreme weather), energy transition risks (e.g. stranded assets), and climate change mitigation plans are all central to my investment decisions. The SEC was created to provide the market with consistent transparency around the risks of an investment decision, and it must act according to that duty.
98	NY		IRA		Stocks	Bonds	As a member of the international Climate Psychology Alliance and a trained Climate Reality Project leader in NY State, it is not enough to prepare people for the increasingly devastating effects of the unfolding climate catastrophe on their mental health and physical safety. I must also demand transparency in companies' reporting of climate-related financial risk-taking with workers' hard-earned retirement savings. This information must be provided annually, standardized, and mandated.

103	IL		IRA	Pension	Stocks	Bonds		As a public community college professor, I have a pension as well as my own IRA account and some bonds. I am concerned that the companies that are invested in are not disclosing any climate-related risks. Therefore I support the SEC's new proposed climate-related financial risk disclosures, including a company's vulnerability to climate change and current greenhouse gas emissions. I feel that the SEC should also require companies to reveal plans to protect investors (and their retirement savings) from these risks. To further strengthen these disclosures for investors, I would welcome the SEC's consideration to also have companies provide disclosures focused on environmental justice, Indigenous rights, a just transition for dislocated workers, and community-level impacts. This would provide investors much better transparency about companies to invest in or not. Thank you.

113	AZ		IRA		Stocks	Bonds		As a stockholder current or potential I want to know which companies recognize and care about the current and future environment of our world. The world is on fire and businesses continue to sit on the sidelines.

We need to act NOW to immediately end the use of fossil fuels, invest in green energy and protective measures to ensure that everyone can keep living on this planet equitably, and transition to an economy that is focused on thriving rather than on growth. I would love to have a safe and peaceful retirement. I would love to save and invest money to make sure that happens. But right now we are on a dangerous path. 471	СО				Stocks	Bonds		Climate-Related issues cause countless problems for people, and financial risks are part of this. This way, it's important that investors can use the climate-related financial risks a public company imposes to inform their decision on which stocks to buy. For investors to do this, that information needs to be available, such as in the form of an annual, mandated, standardized information about the public companies' climate-related financial risks.
472	NY	401k	IRA	Pension	Stocks	Bonds		climate-related risk could have an impact on company profits and capital costs. this information would be useful in determining my risk exposure across multiple assets with an attempt to minimize too much climate-related risk. it is very likely every company has compiled this information but doesn't disclose it to the public. if a company doesn't factor in climate risk that would be useful to know as well because it would indicate poor management. I remember when a Seagate factory in the Philippines was destroyed by a typhoon had a big impact on profit loss and capital expenditures. It would be useful to know the increased likelihood of this type of risk for a specific company due to their factory location preference. I could chose a competitor that locates facilities in areas with less climate risk like Buffalo NY. more data is better.

When do we say enough is enough? When every water source is gone? When the air is poisonous? When the planet isn't livable for humans? Economically speaking the depreciation of land isn't even a conversation we are having. The more polluted the land the value of housing goes down. 521	MA		IRA	Pension	Stocks	Bonds	Other Investments	Corporations are getting extremely good at "green washing" their image. And asset managers, like BlackRock, are saying that they are "working with" the companies whose stock they hold to make sure they are implementing responsible climate actions. But none of this is solid, trackable, or measurable. It is the risks, not the vague promises, that we, as investors, need to know about. We need to know the risks the companies face of climate change effects on and impacts of their: operations, supply chains, stranded assets, Scope 3 effects, and industry disruptions - to name a few. Without knowing the scope and timing of these risks, we are clearly not able to make responsible investment decisions.

677	IL			Pension	Stocks	Bonds	Other Investments	I 20+ years ago i moved all my money to socially and environmentally conscious funds and investments where they have thrived. Doing good and doing well are not mutually exclusive. It is long past time we tempered our individual greed and gain with the greater good for all. A greener investment world is not just possible, but the only possibility that yields an environmentally and social just and sound future along with financial prosperity.

681	NC		IRA					I already try to make decisions about where to invest retirement funds based on environmental impact and alignment with other values of racial and social justice. It would be wonderful if there was more transparency about this to inform my decisions.
682	ME		IRA		Stocks	Bonds	Other Investments	I always told my international business students that the U.S. business world was required to be open and honest about their business if they were listed on the stock exchange. Get an annual report, I would tell the skeptics. Sometimes they were surprised and suspicious that you could get, and for free, actual information about a company. But that is the way it works, and it needs to be even more so. Such open and honest information is essential for investors (and customers and employees and others) to know if a company would be a good investment, and a good company to work for, and a reputable fellow citizen. People care about that even more nowadays.

704	NJ	401k	IRA	Pension	Stocks	Bonds	Other Investments	I am contacting you on behalf of a group of friends, family members and co-workers who are very concerned about the impact of climate change.
705	CA	401k	IRA	Pension	Stocks			I am dependent on my IRAs and pension for my future. Though many want to pretend climate risk is non-existent or inconsequential, we know it is real and worthy of tracking.
706	CA	401k	IRA	Pension	Stocks	Bonds		I am especially concerned about my long time holdings in vanguard and their support of petrochemicals and natural gas despite denials.
707	IL		IRA	Pension	Stocks			I am extremely concerned about climate change and do not want the investments in my pension fund to be invested in fossil fuels. So I feel strongly that as an member of 2 pensions funds, City of Chicago and the State Pension Fund of Illinois, SURS, that I and all other pensioners should know how our pensions are being invested.
708	CA		IRA		Stocks			I am extremely concerned about the increasing impact of climate change upon the sustainability (and profitability) of businesses, especially those held in retirement plans. It is imperative that investors and pension managers have the information necessary to evaluate the risks and mitigation efforts of companies in which they have a stake. A strong rule will allow for proper, equitable evaluation of such risks.
709	NC		IRA		Stocks	Bonds	Other Investments	I am extremely interested in what companies are doing to aid fighting our climate crisis and would choose those taking steps to decrease their footprint in an effort to help our environment.
710	CA	401k	IRA		Stocks	Bonds	Other Investments	I am finding out that banks and mutual funds where I have investments are investing my money in destructive fossil fuel, coal and plastics industries which goes completely against the Paris 2015 Agreement between 196 nations. 715	NJ	401k	IRA			Bonds	Other Investments	I am investing in the future for my grandchildren. Climate change is real and affecting us in many ways already. It will affect every industry and business eventually and we must be ready. My investments are on a sound footing when climate change is a factor in their decision-making.

716	MN			Pension			I am living on a bare minimum and seeing my retirement going faster and faster for co-pays, dentist emergencies, etc etc HOWEVER I will always do my part to work for a better environmental justice, community environment, God's gifts to all of us.

718	ОН		IRA	Pension	Stocks	Bonds	I am not a wealthy person. I'm also so tired of corporations protecting themselves and their financial without regard to the climate or to people like me who have worked hard for many years to save for our retirement. We deserve to be informed of our risks.
719	NY						I am not exactly sure what areas our retirement investments are in, but I feel that Corporations, Banks and Investment Institutions SHOULD BE environmentally responsible when investing our money!! It's very important that they are ALL made to be more transparent to the people and the government as to their investments!! We have LESS THAN 8 years to make a REALLY SIGNIFICANT CHANGE!! Or it JUST MIGHT BE TO LATE!!!
720	WI	401k					I am on the cusp of retirement and as a self-employed consultant, worked hard to put money into a SEP account for my retirement. I strongly support any effort to increase transparency in climate related financial risks. It is time for all of us, especially those with resources, to stop supporting investments that risk our future and our planet.
721	NV	401k					I am passionate about ensuring a livable world for my precious nieces and nephews and I do not want to unknowingly invest in companies which do not align with my values.
722	WA		IRA		Stocks	Bonds	I am realizing I have to plan for the impact of climate change in every decision I make. My daughter went to school in New Mexico and now her whole school has to evacuate for 2 weeks because of the forest fires. This was not even an issue we had thought about when she chose her school. I want my financial portfolio to be resilient to climate disasters.
723	WA			Pension			I am receiving payments from the Department of Retirement Services here in Washington state, and I have no idea what investments those funds are drawn from. This worries me. I feel irresponsible not knowing how vulnerable these funds are, or how much I am inadvertently contributing to propping up a fossil fuel system that is no longer viable.
724	MI		IRA	Pension			I am retired and depend on my investments. I truly believe that much of the investments in fossil fuel assets will soon become stranded assets. In addition, these investments for the future needs to take in consideration our children's and grandchildren's future. With the changing climate there has been too much denial of the consequences of the changing climate and its impact on business.
725	PA		IRA	Pension	Stocks	Bonds	I am retired and depend upon my investments for my livelihood. As such, an investment's safety is important to me. Climate change presents a number of major threats to companies' business. As an investor, I wish to know how a company plans to manage the risks that climate change presents.
726	sc			Pension			I am retired and I need to know how Ivan best protect my investments while supporting environmental issues and the climate.
727	CA	401k		Pension			I am retired and need protection!!
728	OR		IRA	Pension	Stocks	Bonds	I am retired, financially dependent on a pension plan with stocks of fossil fuel companies. Ongoing fossil fuel abstraction and burning will in the future lead to a global disaster and possible bankruptcy of the pension plan. My future solvency depends on the ability of people and institutions to accurately determine the risks associated with continued investment in fossil fuel. Boards of directors, CEO's and other high ranking individuals should not be able to shield themselves from loss of income because of their own decisions, while the rest of us suffer from their lies and greed.

729	MD	401k						I am saving for retirement so that I can secure a good future my myself and my family. To allow companies to continue to put money into industries that are destroying the possibility of a good future in unexp. The CEC must take attempt and desiring action.

732	MA		IRA		Stocks			I am strongly in favor of requiring publicly traded companies to reveal their climate-related financial risks.
733	СО				Stocks			I am tired of banks devaluing stocks by 30% before telling the investors. We should be told before they do it.
734	WI	401k	IRA					I am totally ignorant on financial programs. Somehow these things need to be explained to nearly all people that is easier to understand and not be time consuming because none of us have time to study nor the desire to study these topics. 739	CA			Pension	Stocks			I am very concerned about how difficult it is to fight through the corporate protections against exposing which multi-funds are even indirectly reliant on fossil fuels and toxic chemicals that are created as by products of production or use. I love in an area in which such issues are a serious problem from industry and agriculture
740	CA	401k	IRA		Stocks			I am very concerned that my investments may be furthering the distraction of our one and only planet. What's the point in saving for the future if we are actively supporting its distraction.
741	CA			Pension	Stocks			I am very worried about global warming, environmental justice, and the effects of toxic pollution on poor communities. I want my investments to make the world better, not mire degraded and unjust.
742	MN			Pension				I am working for nuclear weapons elimination, we need to connect up with you. We can support, we are growing, and we need to have regulation on the very same companies who are working for our ultimate demise (and theirs)
743	ОН	401k	IRA		Stocks			I and many other investors want to invest in sustainable, environmentally-friendly equities and other investment vehicles. It is outrageous that companies such as Exxon-Mobile can be included in an ESG index, and thus many sustainable mutual funds, when their performance is so abysmal. Ditto for companies such as Coca-Cola, Pepsi or Procter & Gamble when their single-use plastic packaging contributes so much to plastic pollution of our world.
744	NC	401k	IRA	Pension	Stocks	Bonds		I appreciate the power of the stock market and do not wish my investments to be harmed by decisions that favor fossil fuel use.

745	NY		IRA	Pension	Stocks	Bonds	Other Investments	I believe anyone that is concerned about the destruction of our planet should care how their money is used by Wall St. I'm considering closing my portfolio and looking for ethical companies that are just as concerned as I'm. Hopefully there are ethical companies left. What good will money be to anyone if we don't have clean air, water, food for all living beings. I hope
								we still have time.

754	WA	401k						I believe people have a right to information about how their money is being invested.
755	IN			Pension	Stocks	Bonds		I believe that climate change is for real and I believe investors should be made aware of the stand of a company before and during any investment they have made.
756	NM		IRA		Stocks			I believe that continued investment in fossil fuels is very short-sighted and poses long-term risks to assets.
757	OR	401k	IRA		Stocks			I believe that investors deserve to have this information when they choose where to put their money and decide what they want to support.
758	WI			Pension			Other Investments	I believe that standardized information benefits us all!!!!
759	IL		IRA	Pension	Stocks	Bonds		I believe that the climate crisis is the most urgent issue that we face. Climate related events can affect companies' operations.
760	СО						Other Investments	I believe that we need to hit companies that do not embrace a climate friendly platform and plan for change in the pocketbook where it hurts the most.
761	MN		IRA	Pension	Stocks	Bonds		I believe the SEC should mandate standardized information about public companies' climate-related financial risks. The temptation and pressure for these companies to risk individual investor's assets by simply falling in line with broad corporate strategies that fly in the face of sound environmental and financial practices is too great for them not to be monitored by the appropriate federal agencies.
762	NY	401k						I believe we need to know where private business is hurting public government and citizens with its polluting practices. We end up doing the cleaning up of their messes with not impact to their bottom line but a tremendous impact on our environment and public health. We have very little opportunity to require companies to disclose ANY information. We need at least this bill to keep the flow of info moving!!!

765	CA	401k	IRA		Stocks	Bonds	Other Investments	I cannot be truly informed about whether a company in which company to invest if I can't evaluate their environmental impact. Further, the requirement that they report it puts pressure on them to be more responsible is this absolutely critical area.

877	VT		IRA		Stocks	Bonds		I feel very strongly about our responsibility to the earth and my children, god-children and granddaughters; and I depend on my IRA because I have been self-employed and my husband has no pension. We live entirely on social security and my quarter time self employment (we are on our late sixties), which is minimal. And we built our home with our own two hands and prepared for this time all of our lives. Most important though: what little money I have I want to put in ethical hands that respect and care for the future and life on earth. This is vitally immediate and important to me. Please attend to these issues and give these public companies using our money some boundaries and accountability.

897	IA	401k	IRA	Pension	Stocks	Bonds	Other Investments	I have become so concerned about the effects of climate change that I have personally removed fossil fuel investments from my portfolio. The Department of Defense includes climate change in its planning for the future, and so do I.
898	IL		IRA		Stocks	Bonds	Other Investments	I have been divesting from harmful industries for decades, long before it became known as "socially responsible" or CSG. In part, that was before the Internet existed, when it was exponentially harder to find out what any given fund was investing in. Investors deserve to be able to find out whatever they want to know about a company's or a mutual fund's activities. Transparency can only aid our society's improvement in this regard.
899	TX	401k	IRA	Pension	Stocks			I have been doing the leg work myself. Quit making this important information so hard to find!!!
900	MD		IRA		Stocks			I have believed for a long time that humans are by far the most destructive of all invasive species. The human population is growing while the available living space is shrinking because of climate change that causes rising sea level. We are also causing the loss of wildlife by pollution and carbon emission. For future generations we must do all we can to preserve wildlife and the natural environment.
901	MD		IRA		Stocks			I have children who will have to live here after I'm gone.
902	KY		IRA					I have deep concerns that what I've saved up for all my life may not be enough with all the impacts of climate change and the extra expenses of extreme weather. We need to know the impact on our lifetime savings
903	CA		IRA	Pension	Stocks			I have found it difficult to impossible to assess the climate impacts of my investments. We all need to pay attention and steer our way to less climate danger.
904	CA	401k						I have grandchildren and I want them to live in a livable world! I'm old enough to remember rivers catching fire! I lived in NYC and remember not being able to see the buildings two blocks away! One of the horrible fires in CA a few years ago came within a mile of their house. There is no Planet B! And our planet is so beautiful! If we humans are so smart we should act like it!

905	NC	401k		Pension	Stocks	Bonds	Other Investments	I have grandchildren. I recognize that corporations (together with governments) are the most effective actors to address climate impacts, so their policies and actions will make a big difference on greenhouse gases, ocean acidity and productivity, reshaping of rainfall/precipitation patterns, sea level rise and indirect climate risk factors such as susceptibility to fire, disease migration and many others. I want to support corporate activity that is highly aware of these factors and undertakes to be responsible in limiting climate-jeopardizing activities, and where possible, adding to our existing tools for mitigation and adaptation to climate damage and risk.
906	NY	401k		Pension	Stocks			I have had my 401k and Ira through fidelity for years. I will be 65 this month and planned to convert some funds to a Fidelity managed annuity. But the recent announcement about Crypto options from Fidelity is so environmentally irresponsible I a looking for a new financial institution. I need to know where they stand on environmental issues. This is the primary concern for me. Leaving the planet in a better position is existential. Leaving money is not important to me at
								all.

914	NJ		IRA				Other Investments	I have mostly index funds, but would like to be able to see what the companies in those funds do climate-wise. Then I could talk to the investment company that runs the fund.
915	NV	401k	IRA	Pension	Stocks	Bonds		I have moved over half of my assets into divestment accounts to pull my investing away from supporting fossil fuels. If we are going to green up our transportation and energy sectors, we must also green our financial system.
916	IL	401k			Stocks			I have no choice but to invest in stocks for retirement. I do not want to invest in companies that are not doing all they can to deal with climate change, do not create a good work environment regarding diversity and equity. We have strayed very far from a civil society and full on into vulture capitalism and I want to support companies with a social and moral conscious. I would also like to see a law that limits the percentage management can earn compared to the workers. This has become unconscionable.

917	OR				Stocks	Bonds	Other Investments	I have numerous investments, both in the version of a 401K issued to employees of healthcare non-profits (I can never remember the special designation), and in both mutual funds, a family trust account, and some small investments in individual stocks and bonds. I try to choose to best mitigate risk, and do what I believe is ethically best on numerous levels, but it's impossible to do that if I don't have all the information, and if corporations aren't being entirely transparent. I also try to educate myself about potential future risks, both to specific industries in which I invest, and to our economy in general, and I believe we are in EXTREME danger from Climate Change for which we are grossly unprepared, and much of that preparation must be undertaken by private corporations to protect their holdings, or their value will be obliterated. If they aren't transparent about how they are both possibly going to be effected, and what steps they are actively taking to mitigate, divest, or prepare for the inevitable problems that are coming, I have an absolute right to be kept fully informed, frequently, of their malfeasance in this regard.
918	CA		IRA	Pension	Stocks			I have opted out of every fund that I know invests in fossil fuels, but it can be difficult to tell without receiving accurate, annual information about climate-related financial risks. 919	MD		IRA		Stocks	Bonds		I have read that private equity firms are buying fossil fuel properties from the big oil companies and operating them them in a way that pollutes even more. We must know the truth about what is happening so that meaningful steps can be taken to reduce CO2 emissions.

I hope you will support this legislation to help retirees like me have more success in removing our money from the fossil fuel industry.

925	NJ		IRA		Stocks			I have stocks inside and outside my IRA, and every year I at least skim the annual reports in order to vote at the annual meetings (by proxy, of course). The more standardized the financial disclosures, the easier that process is; I have been tracking CEO pay ratios, and it is very informative, including what details they supply. As a climate activist off and on since the first Earth Day 52 years ago, and seriously in the last decade or so, standardized information about climate risks would help me from both an ethical (choosing investments based on principle) and a financial perspective (avoiding the worst financial risks of climate change).

1267	WA			_	Stocks			I would really appreciate a guide to invest.
1268	KY	401k	IRA	Pension	Stocks	Bonds	Other Investments	I would think it vital for investors to have all information necessary to make decisions.
1269	MO			Pension	Stocks		Other Investments	I would very much like to be informed!
								I, as a retired biologist from the Fish and Wildlife Service, believe this is the only way the SEC
1270			IRA	Pension	Stocks			can ensure that all interested parties can get full disclosure! In this era we all need to know
								whether the corporations we invest in are fully protecting our precious environment!

1271	NH	401k						I, as an investor, should have a right to know if a company holds my values of trying to protect our planet and the desire to hand my children and all children a healthy environment to grow up in an live on in the future.
1272	KY						Other Investments	I, like many others, would prefer not to invest in fossil fuels and contribute to the destruction of the planet.
1273	OR		IRA	Pension	Stocks	Bonds		I'd feel calmer knowing that corporations understand that money in fossil fuels is a foolish move now that it is clear what is happening to our climate. Help those execs see the big picture, please.
1274	MN	401k	IRA		Stocks			I'd like to avoid investing in polluters and those companies at risk from climate change.
1275	AZ		IRA		Stocks	Bonds		I'd like to easily know whether my investments are helping or hurting our living environs.
1276	VA				Stocks	Bonds		I'd like to know how much damage companies I financially support are responsible for. On a larger scale I believe that with more exposure of the damage caused we might prevent the next Cancer Alley from forming.
1277	NY			Pension	Stocks			I'd like to know if companies I'm invested in share my views on climate related issues.
1278	TX		IRA				Other Investments	I'd like to know where my cash is and that it is generating profits rather than losing money or becoming stagnant. Full disclosure is necessary.
1279	CA	401k	IRA	Pension	Stocks		Other Investments	I'd really like to know that the fees earned off my investments are not supporting companies taking climate-related risks or damaging the environment.
1280	NY	401k	IRA	Pension	Stocks	Bonds		I'm 78 yrs old and still working. I invest in EFTs, stocks and bonds geared toward green energy alternatives, from wind to solar to the latest battery designs. I would like all companies to be transparent about their energy usage, where it comes from and what they are doing to help or hinder the world climate.
1281	WI						Other Investments	I'm 83. I don't have time for making investment mistakes and the making time consuming corrections. I need to have environmental information needed to make investment decision carefully to avoid risky areas. Thank you.
1282	FL	401k	IRA		Stocks	Bonds	Other Investments	I'm a clinical pharmacist and I, along with the medical community, recognize that climate change and air pollution from the burning of fossil fuels are our greatest health threat. To allow financial organizations contribute to practices known to devestating human health with no accountability cannot continue. Investing in these practices further advances us towards devastation of our health and our economy. We can not wait any longer. Please do the right thing today.
1283	СО	401k		Pension				I'm a former professor of management who taught sustainability management at the University of Tulsa School of Law. The principles of full cost/life cycle accounting require that we include consideration of climate risk. It's imperative that investors have standardized information to assess the real risks of their investments.
1284	NC	401k						I'm a high school teacher and sustainability coordinator. Next year, my students in Environmental Sustainability will begin working with our economics class to examine the environmental impact of our school's endowment. Complete information from the companies we've invested in, including Scope 3 emissions, is essential to understanding whether our investments are supporting or undermining the future for our students.
1285	CA	401k			Stocks			I'm a new mom and I believe we can solve the climate crisis if everyone does their part. Transparency is a much needed step in the right direction!

1299 1300	CA PA			Pension				I'm increasingly interested in investing in companies that take climate risk seriously. Standardized information would make this so much easier! As things are, it's difficult for someone who cannot devote hours and hours to determine what is "spin," and what is true. I'm losing my retirement as fossil fuel burning destroys the climate.
1298	NH		IRA	Pension	Stocks	Bonds		I'm in for the long term. Climate protection is a good long-term investment.
1297	MI		IRA	Pension				I'm entitled to an accurate disclosure of how much risk funds are taking on so that I can make informed investment decisions.
1296	CA	401k	IRA	Pension			Other Investments	I'm dependent on these for my income and I need to be sure that my best interests are being looked after - and that doesn't include investing in fossil fuels.
1295	IL		IRA	Pension	Stocks	Bonds		I'm constantly trying to weight the impact of my stocks on climate and vice versa.
1294				Pension	Stocks			I'm concerned that fossil fuel and other related corporations are making irresponsible decisions about investing their stockholders' money, and that the likelihood of disastrous stranded assets due both to climate change and energy source shifts will render the investments that I count on for retirement worthless.
1293	CA	401k	IRA					may not be supporting. I'm concerned about climate change, and would like to know if companies are at risk from it.
1292	CA						Other Investments	I'm concerned about climate change and I want to able to know what my investments may or may not be supporting.
1291	CA	401k						I'm a young person, in my early 20s. When I invest for the future, I have to have a future to invest in. A 401k can't do much to protect my future if I'm headed to a world of food shortages, water shortages, and extreme weather events due to climate change. Climate related risks are important to any investing I'll be doing for retirement, because we'll be seeing a lot of climate effects by the time I'm old enough to retire.
1290	CA	401k	IRA					I'm a small investor who is very concerned about the climate emergency and related financial risk. I want to support those companies that have a strategy to address the climate.
1289	CA		IRA		Stocks	Bonds		I'm a single woman with a VERY modest Social Security payment, I took SS at 62 after receiving a diagnosis for terminal breast cancer. Quite remarkably, I survived. I have my own small business and pay a lot of attention to the changing climate as I am a voice for tropical vanilla growers as I've had an online presence since 2001 and assist them with information they need in order to produce and sell their vanilla beans to the European and US markets. If vanilla and cocoa are going to survive the changing climate, it's critical that these farmers have the information they need. And, for my own financial survival, it's just as critical that I have the funds to support myself for the rest of my life.
1288	MD	401k	IRA	Pension	Stocks	Bonds		I'm a retired climate scientist, and it really bothers me that even companies not in the fossil fuel business are supporting extraction by their finances
1287	FL	401k	IRA		Stocks			hiding their funding impacts as a result. I expect full transparency on Climate related funding risks!
1286	NH		IRA					I'm a nurse. This IRA and social security are all I have to retire on. I need to know that the money will be there when I need it, and not lost to damage from climate change which is already happening I'm a proponent swift, science based action on Climate Change. Corporations are notorious for

								I'm quite fed up with government bailing out corporations that preach "free market" and then,
1303	MD			Pension				when the free market hands them an issue (Covid) or they simply disregard their fiduciary duty to understand the risk related to an investment (2008 collateral mortgages) they come with their hands out. Taxpayers need their investment in government protected. The SEC need to do its job!
1304	CA	401k		Pension				I'm retired and depend on my income from my pension. My account managers need this information to evaluate risk. And I am extremely concerned about my grandkids future in our changed and changing climate.
1305				Pension				I'm seriously concerned that the value of my pension could be at risk if the investments made on my behalf are in relatively risky fossil fuel companies, that I think are heading for financial disaster as such products become more expensive to extract & process; and that climate change may make investments in, for example, pipelines and other infrastructure even more risky.
1306	PA		IRA	Pension				I'm terrified about the future and the demise of Social Security.
1307	FL			Pension			Other Investments	I'm tired of being mislead and out right lied to. Make these companies tell the TRUTH
1308	СТ	401k	IRA		Stocks	Bonds		I'm trying to invest green so there's a future to retire into and it's really hard, even with a financial advisor trying to help
1309	CA		IRA					I've already lost a great deal of money due to market volatility and other probably illegal speculative moves. At this juncture, I cannot afford the more unnecessary losses. Thank you.
1310	MA		IRA		Stocks		Other Investments	I've always practiced socially responsible / sustainable investing, and evaluating companies for future investment would be much easier if there were climate risk disclosures. Otherwise individual investors are left to guess at which companies are appropriate investments, and may reduce investment levels or avoid diversification because of the lack of information.
1311	NY	401k		Pension			Other Investments	I've always worked very hard for what I have. I need to be informed about Public Companies' climate-related financial risks.
1312	CA	401k	IRA	Pension	Stocks	Bonds		I've been into stockholder actions for decades and I would love to see this information madated.
1313	ŊJ	401k	IRA					I've heard companies say unless the SEC passes this they're not going to progress with any serious metrics another words this is a necessity as well it should be, the risks are very high. Ignoring impact costs doesn't make them disappear in fact it only makes the situation riskier and more expensive.
1314	ОН		IRA		Stocks		Other Investments	I've just moved after 49 years in the drought-stricken sunbelt. I've watched fire, rising temperatures, the destruction of orchards by farmers with no water. I know climate change is affecting every aspect of our lives, and that it will also drive the economy and the investments I live on.
1315	NY		IRA		Stocks			I've noticed that people are increasingly asking for this sort of information through proxy votes. For Facebook in particular, Mark Zuckerberg holds 55% of the voting shares too many to be able to get anything passed without his approval.
1316	TX	401k	IRA	Pension				I've saved my whole life & retiring this year. I depend in my distributions for my living expenses. Financial risks related to the climate crisis is necessary to protect my moderate income.
1317	CA	401k		Pension	Stocks	Bonds		I've saved responsibly all of my working life. I am also extremely concerned about the damage climate change is causing all over the planet. We need to given accurate information about our investments, while encouraging all investment companies to safely handle our money in planet friendly ways.
1318	FL	401k	IRA	Pension	Stocks			I've worked all my adult life. Please protect my 401K.

1319	MT		IRA	Pension	Stocks			I've worked all my life, planned and saved for retirement. I've done everything right- don't jeopardize my future!
1320	ок	401k	IRA	Pension	Stocks	Bonds		If a company is not supporting policies and practices that help mitigate climate change issues, then that company is shirking its responsibility to the people it serves and it employees, as well as the country that allows it to be profitable
1321	NM	401k	IRA	Pension	Stocks			If a company sells to the public, they have an obligation to provide climate risks, as those ARE affecting everyone and will eventually destroy our civilization if continued. Those are facts.
1322	OR		IRA		Stocks	Bonds	Other Investments	If a given company is going to use my money, I have a right to know how they're using it. If they're paying me interest or dividends, I have a RESPONSIBILITY to see that I'm not profiting by environmental destruction.
1323	ΑZ		IRA					If anything, investors need more, not less, protection from unbridled greed.
1324	СО	401k						If climate change isn't factored in, many people are flying blind. Especially the naive, ignorant, feeble minded ones that still need reminding that climate change isn't just a hoax. And, it would force companies to disclose their contributions and risk to the destruction of our beautiful planet.
1325	CA	401k	IRA	Pension		Bonds		If companies are investing our money, we need to know what they're investing in and the risks they're taking.
1326	NY		IRA					If companies persist in acting in ways that further exacerbate the climate emergency, then they should be outed and investors dump them from their portfolios.
1327	CA		IRA					If companies will not be up front voluntarily about the ways they are risking our future, then we are counting on you to take measures to protect us.
1328	WA			Pension		Bonds		If ever there was a threat that needs to be taken into consideration by investors and the market - it's climate change. Please require companies to include these climate change impacts in their SEC reports
1329	NY	401k	IRA	Pension	Stocks			If Financial Organizations begin to control all of these investments, the results will be that the wealthy and powerful can easily eliminate the savings that the rest of us have worked hard to accrue. Enough is enough More consolidation will eliminate necessary savings funds for our family members, charities, and the care of the elderly and disabled. Greed knows no bounds.

1336	ΑZ		IRA	Pension	Stocks	Bonds		If our country doesn't address climate priority no other issues will matter in the long term.
1337	NY	401k						If our future well-being is dependent on the function of the stock market, we have a right to information about that market.
1338	TX	401k			Stocks			If our money is being used to further damage this Earth and climate, we have a right to know, and to demand they implement changes that will not only reverse what they've done, but go further towards climate reparations.

1341	MA	401k	IRA		Stocks			If the valuations of these companies are based on fossil fuel reserves that can't be exploited without destroying the climate, the valuations are invalid.
1342	WA	401k	IRA					if this information is not make available, it forces workers to invest in companies that are destroying their own environment and destroying their own work environment. Simply put worker will be betting against their own health and future.

1361	ОК	401k	IRA	Pension				In MBA school, I learned that one of the key requirements for the existence of a truly "free" market, was that (all/multiple) buyers and sellers had equivalent (access to) accurate information. Requiring a standardized and periodic way of reporting climate-related risks for publicly-traded companies is a perfect example of this type of government function, WITHOUT which a much-touted and truly free market CANNOT exist!
1362				Pension				In my opinion, it is vital that companies stop investing in fossil fuels and rainforest clearance which are causing the destruction of life on earth due to the climate crisis causing devastating extreme weather conditions.
1363	MN	401k	IRA					In order to choose the best investments I need reliable consistent information about the risks affecting companies in which I invest. As a minister, my concern is not just my own comfort, but the health of this planet for future generations. I want to invest responsibly and that requires your honest informational assistance.
1404	AL	401k		Pension				Investment safety should be mandated, standardized and updated frequently. When they are not people find ways to profit off of hard working Americans' profits.

1405	ОН	401k		Pension				Investments are layered in funds that give little information to the investment itself-very hard to discern what I am invested in!
1406	WA		IRA	Pension	Stocks	Bonds		Investments mean nothing if we support climate change leading to our deaths and other life on earth.
1407	FL		IRA	Pension	Stocks			Investments that cause "climate-related" problems should be scrutinized and addressed.
1408	MD		IRA		Stocks	Bonds		Investments with the potential for financial gain (commonly interest & appreciation) are subject to a potentially broad spectrum of risks of which is environmental exposures are the most common threat. This risk has been exacerbated "global warming". All people, especially investors, need to be aware of this factor. A key responsibility of the SEC is to insure that owners & managers of businesses are candid with their investors or potential investors as to what these factors are and how they could impact their business.
1409	CA		IRA		Stocks	Bonds	Other Investments	Investments with undeclared climate risks is like buying a car whose faulty brakes are undisclosed. There will be crash.

1617	CA	401k	IRA	Pension	Stocks	Bonds		It's pure insanity to invest in the destruction of our world, which is what much of the investor class does. There's a better way! Invest in a better world and help create instruments that will make that possible.
1618	WA			Pension	Stocks	Bonds		It's quite simple. The rulers and owners don't want the rest of us to know the details of any investments we might have through pension plans, etc. If we knew these details, we might actually object to how some of these companies are investing our money in banks and insurance that support fossil fuels and fight every effort to mitigate climate change to give but one example.

1650	СО		IRA					Just as unforeseen natural catastrophes greatly impact the physical world, humans, and nature, a rapidly changing climate that is ramping up storm, droughts, and tornadoes impacts the financial ability for companies and people to rebound from the effects of this change.

1651	ON			Pension				Just as we need to know whether inflation is about supply chain disruptions or executive price gouging, we also need to know, and for companies to prove, that they are not green washing their efforts to reduce carbon dioxide combustion pollution and that they are actually divesting from the sources and causes of mass extinction. Neither individuals, companies nor societies can lie their way to health, abundance and sustainability. Everyone must be held responsible and accountable.

1656	OR	401k	IRA	Pension	Stocks	Bonds		Knowing how much GHG is produced by the companies would have an impact on my decision-making regarding which mutual funds I would invest in. It is important I have the whole picture in a standardized way.
1657	CA	401k	IRA					Knowing how our investments may be contributing to the climate crisis is extremely important to me and millions of people around the world. The burden should not be on the individual to do intensive research to figure this out.
1658	CA				Stocks	Bonds		Knowing the impact on climate is imperative to making good business decisions if these businesses want to survive. Our atmosphere is warming much faster than anyone predicted.

Because climate change risks represent a very real financial, social and environmental risk, issuers of securities who omit such information from their disclosures could be misleading the public. 1929	MI			Pension				Since I have invested in my pension over the years of my employment, I have a right to know where my money is being invested. 1959	СО	401k	IRA	Pension	Stocks	Bonds		Standardized disclosure of corporations' financial risks due to climate concerns allows investors to better understand and evaluate corporations based on that important investment criterion. Ultimately, this will help investors and corporations make decisions based on climate risks, and help reduce the behaviors that contribute to climate change problems.
1960	CA		IRA	Pension				standardized disclosures would give investors insight about a public company's vulnerability to climate change and current greenhouse gas emissions. It would also require companies to reveal plans to protect investors (and their retirement savings) from these risks.

2010	NY		IRA	Pension	Stocks	Bonds	The danger of climate change is increasing. Investors should be protected from the irresponsible actions of corporations that both damage the value of their long-term investments and the fundamental climate environment on which life, and our society, depend.
2011				Pension			The destructive impacts of climate change make the reduction of all types of pollution ASAP humanity's primary existential priority.
2012	WA			Pension			The deterioration of our climate/environment is the #1 threat right now to our planet and all species. Well researched scientific predictions indicate that it will only get worse, likely exponentially. Public companies must be transparent with the public about the extent to which their products/actions/behaviors are contributing now and in the future to climate chaos. This is essential information for potential investors. Many of us care very much about having as healthy as possible a planet now and forever for our grandchildren to have grandchildren. Saving our planet's health holds much higher value than short-term profits that come at the expense of continued environmental devastation.

2043	WA			Pension				The intent of the executive order is to protect pensions from loss and also to decrease the impacts of climate-related disaster on the US economy and financial systems. Surveys show that citizens are worried about climate. Transparency is vital for citizens; easy access to information is vital. I am asking the SEC to go beyond transparency and recommend to investment managers that the identified specific assets are inappropriate for pensions because of their climate-related impact on life savings and US financial security. I find identification of specific inappropriate assets necessary because pensions have taken little action even though it has been clear for many years that 1) fossil fuel investments lag the market and decrease profits; 2) climate disaster costs are heavy and increasing; 3) investment by US pensions in fossil fuels is so large that US funding is putting life on the entire world in peril; 4) climate change poses serious and systemic risks to the U.S. economy and financial system/financial stability; 5) the US economy would shift to clean energy if not for massive pension investment in fossil fuels; 6) most citizens in the US are very worried about climate and do not want their money promoting fossil fuels. At least half of fossil fuel investment by state pensions is through private equity firms, insurance/investment companies, and banks. It is vital that these pension and retirement account investments be disclosed. Pensions are presently increasing investments in private equity; private equity is increasing climate destroying new fossil fuel investments which are inappropriate for retirement accounts and pensions. These companies include: The Blackstone Group, The Carlyle group, KKR, Arclight Capital partners, Global Infrastructure Partners, Kayne Anderson/Plains All American Pipeline, Oaktree capital, Warburg Pincus, Riverstone Holdings, Encap, NGP Energy Capital, Brookfield, Apollo, TPG, CVC. https://pestakeholder.org/wpcontent/uploads/2022/02/PESP LS PrivateEquityDirtyDozen Feb2022-Fina
