Dear Chairman Cox:

This letter is in reference to the proposed revision of **SEC Rule 14a-8** which could limit the right of shareholders to sponsor advisory resolutions. Since the revision suggested would affect the work of many committees formed to foster PEACE and JUSTICE, I ask that you refuse to support this resolution.

The SEC monitors the work of corporations and is aware of shareholder rights. We are aware that the wok of our Shareholder and Education Advocacy group would be adversely affected if this proposal is passed.

Thank you for considering this request.

Sincerely,

*Sister Mary Wolfe BVM*
