RE: Your September 30, 2016 correspondence

Dear Mr. Amarel:

Our office received your September 30, 2016 letter and enclosures in a U.S. Postal Service envelope (see copies enclosed for your reference). I am sending you these copies for your reference, because in your letter you described sending us a flash drive, but as you see from the enclosed copies, your envelope came ripped open and with no flash drive inside. All we received were the materials I enclose, and the U.S. Postal Service envelope containing them. If you can send another flash drive, we are of course happy to receive it. You may send it to my attention.

Best regards,

Scott A. Masel
Attorney Adviser
