

File Number S7-23-19 Rule 14a-8

Dear Chairman Clayton and Members of the SEC,

As a small investor and a mother deeply concerned about climate change, I urge you to withdraw changes to SEC 14a-8. Small shareholder resolutions are a critical way that ordinary citizens, like me, can voice our concerns with company operations and policies. I see this as a particularly important right regarding climate impacts as well as planning for climate disruption. Please help me protect my children and my investment by safeguarding my voice.

Thank you.

Sincerely,

Lisa Fitzgibbons
