Prohibition against Undue Influence over Chief Compliance Officers; Position Reporting of Large
Security-Based Swap Positions

Dear Secretary Countryman:

I firmly support the purposed rule: File Number S7-32-10

As any initiative to help and prevent wanton fraud and manipulation within our free markets should be seen in a favorable light. I support the SEC setting forth a baseline of vigilance against abusive uses and manipulations of Security-based Swaps, not only by nefarious market actors but also preventing officials entrusted with such important oversight positions from abusing it as well. Whether directly or through a second party person/ entitiy.

Sincerely,

A Concerned Investor
