Re: [Release No. 34-93784; File No. S7-32-10]

To whom this may concern,

I love my country; I believe in my country, I want my country to prosper. Free and open markets are necessary for us to thrive in this world. I'm excited for this proposed rule because it will finally allow every investor like myself to make financial decisions based on clear data.

The reporting requirements for swaps and swap derivatives are purposely opaque so that short interest can be fraudulently hidden from investors. Free and open markets need to have price discovery to function, and this proposed rule is a step in the right direction to allow for true price discovery on swaps and swap derivatives.

I urge you to do the right thing and pass this proposed rule in its full power, as soon as possible so that the free markets here and abroad can continue to thrive for the benefit of all investors.

Thank you so much,

Roberto M, a concerned investor.
