**RE: File No. S7-32-22; Release No. 34-96496; Regulation Best Execution**

Dear Ms. Countryman:

I am a class action attorney and individual household investor who has been paying attention to our financial markets for some time. I support Proposed Rule No. 34-96496 because it would reduce conflicts of interest and increase transparency in the routing of orders by brokers and wholesalers. This is sorely needed in our markets, which are currently rife with conflicts of interest, obfuscation, and unfair advantage, much of which harms household investors. Please pass Proposed Rule 34-96496.

Very Truly Yours,

Jack Fitzgerald
