Why no mention of the SEC FOIA in your draft report? Based on my experiences the past three years, and that of my attorneys, your FOIA is staffed by obstructionist bureaucrats that do everything possible **NOT** to provide information. The FOIA staff is an embarrassment to the SEC in general. The SEC OIG is not much better in terms of its treatment of complaint filers such as myself. If you would like specific details of our pitiful experiences with the SEC FOIA and OIG, you will find contact information below. Paul Zindell
