Re: File No. SR-NASDAQ-2020-081

Dear Ms. Countryman:

WW International, Inc. appreciates the opportunity to submit this letter in response to the Securities and Exchange Commission's ("SEC") request for comments regarding the NASDAQ Stock Market's ("Nasdaq") new proposed listing rules to advance corporate board diversity and related standardized disclosures.

WW International, Inc. (WW) is a human-centric technology company powered by the world's leading commercial weight management program.

As a publicly-traded and a Nasdaq-listed company, WW is in full support of Nasdaq's proposal. Our company has already taken steps to diversify the company from the board down but this work must continue. Despite increases in diversity in corporate companies, we recognize that in order to make meaningful progress we can all do more to improve board diversity related to race, ethnicity, sexual orientation and gender identity. There is empirical evidence that companies that create an inclusive environment and champion diversity will foster greater innovation and achieve longer term sustainable success.

WW reiterates our support for Nasdaq's proposed rule changes and commends the proactive efforts of its leadership in anchoring board diversity within its listing rules. We appreciate this opportunity to provide feedback on the proposed rule change to SEC and hope that you will adopt Nasdaq's proposal. Thank you for considering our views on this important topic.

Mindy Grossman, President & CEO WW International, Inc.
