SUBJECT: File No. SR-NYSE-2023-09 | Demanding that the SEC **NOT** Allow NACs

I strenuously oppose the horrifically egregious assault against the most basic freedoms of private citizens and their property, which take the current form of the proposed 'NACs'.

NACs are the brainchild of nothing more nor less than global criminal mafiosos, masquerading as philanthropists to consolidate global control, commit the wholesale theft of virtually all private property and enslave each and every citizen of not only the United States, but the entire world through the use of co-opted government force and its thinly-veiled mask of legitimacy.

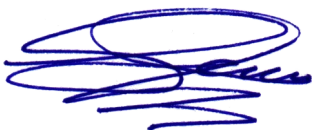

This outrageous attempt to end any remaining semblance of individual liberty in the land that purports to be its last remaining bastion may be the catalyst that fomenting outright civil war in defense of the once-lauded fundamental freedoms, which gave birth to our once-great nation.

As part of my comment I further adopt the positions of:

- The Attorneys General for the States of Utah, Kansas, Alabama, Alaska, Arkansas, Florida, Idaho, Indiana, Iowa, Kentucky, Louisiana, Mississippi, Missouri, Montana, Nebraska, New Hampshire, North Dakota, Ohio, Oklahoma, South Carolina, Tennessee, Texas, Virginia, West Virginia, and Wyoming
- Wyoming State Senator Cheri Steinmetz, serving Senate District 3
- Ronald D. Simpson

I demand that the SEC take into careful consideration the dark and horrific consequences that approving the concept of so-called "NACs" will undoubtedly bring to bear.

Urgently,

Edward Benet
