SR-NYSEArca-2014-89; Amendment No. 2

NYSE Arca, Inc. (“Exchange”) hereby amends SR-NYSEArca-2014-89 (“Filing”) as follows:

1. The third full paragraph on page 38 of the Filing and the last partial paragraph on page 104 (extending to page 105) of Exhibit 1 to the Filing are deleted and replaced with the following:

“Each of the Funds’ investments, including derivatives, will be consistent with that Fund’s investment objective and a Fund’s use of derivatives may be used to enhance leverage. For example, in seeking to outperform a specified equity index, each Fund will normally obtain full (i.e., approximately 1x) economic exposure to a specified equity portfolio through the use of derivatives (in many instances through use of a total return swap) with a small percentage of the Fund’s assets so that the remainder of the Fund’s assets may be invested in an actively-managed fixed income portfolio. In a typical swap agreement, the Fund will receive the total return of the specified equity portfolio from the counterparty to the swap agreement in exchange for paying the counterparty an agreed upon short-term interest rate. This strategy is intended to provide a Fund with total notional exposure that exceeds the value of its net assets. As noted above in the section “Use of Derivatives by the Funds”, to limit the potential risk associated with the Funds’ use of derivatives, a Fund will segregate or “ earmark ” assets determined to be liquid by PIMCO in accordance with procedures established by the Trust’s Board and in accordance with the 1940 Act (or, as permitted by applicable regulation, enter into certain offsetting positions) to cover its obligations under derivative instruments. These procedures have been adopted consistent with Section 18 of the 1940 Act and related Commission guidance. However, a Fund’s investments will not be used to seek performance that is the multiple or inverse multiple (i.e., 2Xs and 3Xs) of a Fund’s broad-based securities market index (as defined in Form N-1A).

The Exchange believes that the proposed rule change, as modified by this amendment, is consistent with the requirement of Section 6(b)(5) of the Securities Exchange Act of 1934¹ (“Act”) that an exchange have rules that are designed, among other things, to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to, and perfect the mechanism of a free and open market and, in general to protect investors and the public interest. The proposed amendment expands the description in the Filing regarding a Fund’s use of derivatives and provides an example of the use of derivatives that may be used as part of a strategy intended to provide a Fund with total notional exposure that exceeds the value of its net assets. A Fund will segregate assets determined to be liquid by PIMCO in accordance with procedures established by the Trust’s Board and in accordance with the 1940 Act (or, as permitted by applicable regulation, enter into certain offsetting positions) to cover its obligations under derivative instruments. A Fund’s investments will not be used to

seek performance that is the multiple or inverse multiple (i.e., 2Xs and 3Xs) of a Fund's broad-based securities market index.
