

SUPPLIER DIVERSITY AT THE SEC

The mission of the U.S. Securities and Exchange Commission (SEC) is to protect investors, maintain fair, orderly, and efficient markets, and facilitate capital formation. In carrying out its mission, the SEC is committed to building a diverse supplier base and utilizing minority-owned and women-owned businesses to provide goods and services to the agency.

Working with Our Suppliers

The SEC extends outreach to minority-owned and women-owned businesses to inform them of SEC procurement opportunities, provide technical assistance and gauge market capabilities.

WHAT THE SEC BUYS

HOW THE SEC DOES BUSINESS

The SEC is required to follow the Federal Acquisition Regulation (FAR) when procuring goods and services. The SEC utilizes U.S. General Services Administration (GSA) multiple award schedule contracts, government-wide acquisition contracts (GWAC) and multi-agency contracts (MAC) for many of its contracting needs. For goods and services not available through these contract vehicles, the SEC posts procurement requirements on www.sam.gov.

Suppliers are encouraged to research the agency's mission and procurement needs in order to effectively market their products and services.
