Motion for Hearing

I just received the fourth motion for a continuance in the case listed above. I have asked repeatedly for an expedited decision in this case due to my age, now 75, and other health issues. [REDACTED]

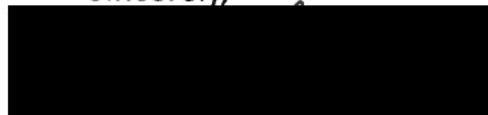

[REDACTED] As the Commission knows, FINRA has accused me and my company, Dakota Securities Intl., of felony charges, namely falsifying financial documents. I and my company have suffered the ultimate punishment which is a bar from the industry. I am asking the commission to go to Google and put in my name, Bruce Zipper. You will see what I, my wife, and my children must live with. That being that their husband, and father is a felon and a danger to the investing public. You will see multiple lawyers soliciting clients of Bruce Zipper and Dakota Securities to bring a lawsuit against both. I have sent the Commission many briefs in this case showing that not only is that not true, but that FINRA LIED along the way to make sure their charges of barring Zipper and Dakota would stand. This is not fair to me and my family. As you know I am waiting patiently to take my case to Federal Court. But as you also know, I can't do that until the Commission makes a final ruling in this case.

The Commission seems to be having some issues in deciding this case. To come to a final decision, I am therefore offering a possible solution to both the Commission and to FINRA. That would be to have a hearing in Washington, D.C.

where both you and FINRA are located. I would fly up there and we can all sit down in your offices and address all questions that the Commission may have to come to a resolution on this case. I don't know what else I can do. It has been about 18 months since my and FINRA's motions were sent to you for your review. Don't I deserve a timely decision? I have been financially devastated by FINRA's wrongful accusations who have done all they could to destroy me. Here is an organization that is supposed to be REMEDIAL in their sanctions and not PUNITIVE. After reviewing this case if the Commission believes that is what FINRA has done in this case than please make that ruling and let me please go to Court and try my case there. Who is suffering with this extreme delay for a ruling in this case? Is it FINRA? Is it the Commission? NO, it is me and my family only. NOT FAIR. Please help me. I am pleading for a ruling. And the most important ruling I want to see is who is telling the truth as to if Bruce Zipper is guilty of falsifying Dakota's financial records. Is it Zipper or is it FINRA who I have shown this Commission lied in it's briefs to allow them to use the word FALSIFYING. I wonder how any of you at the Commission would feel if accused of falsifying financial documents for all the world to see and then imagine it was all a LIE! That is what I and my family must live with each day. I am going to prove this in Federal Court! I will be there with the people who FINRA accused me of falsifying their financial records. You know, the ones FINRA called to see if I got their permission to do so. We will see what the judge says after hearing their testimony. They and I can't wait. All I am asking the commission to do is Rule so I can get that chance while I am still alive. That is my motion. Get us all together, UNDER OATH, in your offices and resolve all questions you need answered. I am running out of time.

Thank you again for your time and consideration in this matter.

Sincerely,
