Motion Fore Sec to make TD Simulator Work it used to take 1 Second to Buy a Stock and 1 Second to sell a Stock now it takes 20 Seconds to Buy a Stock and 20 Seconds to sell a Stock is 40 Seconds minimum per trade because TD put the Simulator Data in Low Priority to save millions dollars in Data Usage TD makes the Simulator so 100% nobody wants to use it because TD makes zero money with people using simulator TD Wants them Live Trading violates TD Fiduciary Duty to act in the clients best interest and make accessible to Disabled people and poor class of people the SEC does nothing to Help

  TD OnDemand Repeat any Day 1 minutes two buy a stock and 1 minutes to sell a stock with eight 2 minutes Charts open sometimes half the charts don't work and uses two much ram will overheat a 16 ram computer with not much else running

Repeat any Day simulator should be like a Video Game everything happens under a second and does not take 1 minuet to react

The DC Supreme Court twice remanded my cases to the lower Court my only means relief God Loves all Earth People 100% and God Loves to exterminate all Earth People to save nature God Loves 100% God Loves to Collapse a Billion Planets atmospheres send a billion planets courts to Outer Space God Loves 100%
