Re: Request of FlexShares Trust for Exemptive, Interpretive and/or No-Action Relief from Rule 10b-17 and Rules 101 and 102 of Regulation M promulgated under the Securities Exchange Act of 1934 for Index-Based ETFs of ETFs

Dear Ms. Tao:

SUMMARY OF REQUEST FOR RELIEF

I am writing on behalf of FlexShares Trust (the "Trust"), an open-end investment company, and the FlexShares[®] Currency Hedged Morningstar DM ex-US Factor Tilt Index Fund (the "DM Fund" or a "Fund") and the FlexShares[®] Currency Hedged Morningstar EM Factor Tilt Index Fund (the "EM Fund" or a "Fund" and together with the DM Fund, the "Funds"), each a separate series of the Trust described herein ("Applicants"). The Trust, on behalf of itself, the Funds, any national securities exchange or national securities association on or through which shares of the Funds ("Shares")¹ are listed (each, a "Listing Exchange") and/or may subsequently trade (with each such market referred to herein as a "Market")², Foreside Fund Services, LLC ("Distributor") and persons or entities engaging in transactions in Shares, including Authorized Participants (as defined below), hereby requests, as applicable, from the staff of the Division of Trading and Markets ("Staff") of the Securities and Exchange Commission ("Commission"), or from the Commission, exemptions, interpretive or no-action advice regarding Rule 10b-17 and Rules 101 and 102 of Regulation M under the Securities Exchange Act of 1934, as amended (the "Exchange Act").

¹The Trust intends to list the Shares of each Fund described herein on NYSE Arca, Inc. ("NYSE Arca").

²In the future, the Trust may determine to list Shares on a Market other than the Listing Exchange. If the Trust lists Shares on a Market other than the Listing Exchange, Shares will be listed in accordance with exchange listing standards that are, or will become, effective pursuant to Section 19(b) of the Exchange Act. If the Shares also trade on a Market pursuant to unlisted trading privileges, such trading will be conducted pursuant to self-regulatory organization rules that have become effective pursuant to Exchange Act Section 19(b).

The Trust intends to offer Shares of the Funds. Each Fund is an exchange-traded fund ("ETF"). The DM Fund will seek to provide investment results that closely correspond, before fees and expenses, to the performance of Morningstar® Developed Markets ex-US Factor Tilt Hedged IndexSM (the "DM Index" or an "Index"), which consists of (a) the equity securities included in the Morningstar® Developed Markets ex-US Factor Tilt IndexSM, as described more fully below (the "DM Underlying Index" or an "Underlying Index"), and (b) a currency hedging component (reflecting the effect of selling the foreign currencies included in the DM Index (the "Foreign Currencies") forward each month) to mitigate exposure to fluctuations between the Foreign Currencies and the U.S. dollar. For reasons of efficiency, the DM Fund intends to track the DM Index by (a) holding shares of the FlexShares® Morningstar Developed Markets ex-US Factor Tilt Index Fund (the "DM Underlying ETF" or an "Underlying ETF"), an ETF whose investment objective is to seek investment results that correspond generally to the performance, before fees and expenses, of the DM Underlying Index, instead of the DM Fund investing directly in the shares of issuers of the individual securities of the DM Underlying Index;³ and (b) entering into forward currency contracts. Accordingly, the DM Fund intends to operate as an "ETF of ETFs." Except for the fact that the DM Fund intends to operate as an ETF of ETFs, and enter into forward currency contracts, the DM Fund will operate in a manner substantially identical to the DM Underlying ETF.

The EM Fund will seek to provide investment results that closely correspond, before fees and expenses, to the performance of Morningstar® Emerging Markets Factor Tilt Hedged IndexSM (the "EM Index" or an "Index"), which consists of (a) the equity securities included in the Morningstar® Emerging Markets Factor Tilt IndexSM, as described more fully below (the "EM Underlying Index" or an "Underlying Index"), and (b) a currency hedging component (reflecting the effect of selling the foreign currencies included in the EM Index (also referred herein as "Foreign Currencies") forward each month) to mitigate exposure to fluctuations between the Foreign Currencies and the U.S. dollar. For reasons of efficiency, the EM Fund intends to track the EM Index by (a) holding shares of the FlexShares® Morningstar Emerging Markets Factor Tilt Index Fund (the "EM Underlying ETF" or an "Underlying ETF"), an ETF whose investment objective is to seek investment results that correspond generally to the performance, before fees and expenses, of the EM Underlying Index, instead of the EM Fund investing directly in the shares of issuers of the individual securities of the EM Underlying Index; and (b) entering into forward currency contracts. Accordingly, the EM Fund intends to operate as an "ETF of ETFs." Except for the fact that the EM Fund intends to operate as an ETF of ETFs, and enter into

³Pursuant to past relief issued by the staff of the Division of Investment Management of the Commission on substantially identical facts, each Fund is permitted to track its Index by investing all or part of its assets in an Underlying ETF, which seeks to track the performance of its Underlying Index by investing 80% of its total assets (but typically far more) in component securities of the Underlying Index. See Letter from Courtney S. Thornton, Senior Counsel, Office of Investment Management Regulation, to Margery K. Neale of Willkie Farr & Gallagher LLP dated October 22, 2008 with respect to iShares Trust et al.

forward currency contracts, the EM Fund will operate in a manner substantially identical to the EM Underlying ETF.

The Staff has issued in the past relief substantially identical to that requested herein to index-based and actively managed ETFs operating as ETFs of ETFs (the "Prior ETFs of ETFs").⁴ The Staff has previously issued substantially similar relief to index-based ETFs⁵ and actively managed ETFs⁶ that invest directly in securities, as well as substantially

Brigagliano, Associate Director, Division of Trading and Markets, to Clifford Chance US LLP regarding PowerShares Actively Managed Exchange Traded

similar relief to various ETPs (collectively, the "Prior ETFs").⁷ The only ETF in which the DM Fund will invest is organized in the United States, registered under the Investment Company Act of 1940, as amended ("1940 Act") and listed on the NYSE Area under the ticker symbol "TLTD." The only ETF in which the EM Fund will invest is organized in the United States, registered under the 1940 Act and listed on the NYSE Area under the ticker symbol "TLTE." Each Fund will operate in a manner substantially identical to the Prior ETFs of ETFs. Except for the fact that each Fund intends to operate as an ETF of ETFs, and enter into forward currency contracts, each Fund will operate in a manner substantially identical to the Prior ETFs. For example, each Fund will disclose its portfolio holdings on a daily basis and information about the prices of the securities and other instruments held by each Fund will be readily available from a variety of sources.

Applicants do not believe the Funds raise any significant new regulatory issues that have not already been addressed by the Commission and Staff.

Nevertheless, because each Fund intends to operate as an ETF of ETFs, and enter into forward currency contracts, Applicants are concerned that the "ETF Class Relief" previously issued by the Staff with respect to certain types of ETFs may not extend to the Funds.⁸ Specifically, the ETF Class Relief does not appear to extend to each Fund to the

Fund Trust, dated April 4, 2008; and Letter from Josephine J. Tao, Assistant Director, Division of Trading and Markets, to Foley & Lardner LLP regarding Bear Stearns Active ETF Trust, dated March 24, 2008.

⁷See for example, Letter from James A. Brigagliano, Assistant Director, Division of Market Regulation, to Michael Schmidtberger, Esq., Sidley Austin Brown & Wood LLP dated January 19, 2006 with respect to DB Commodity Index Tracking Fund and DB Commodity Services LLC; Letter from Brian A. Bussey, Assistant Chief Counsel, Division of Market Regulation, to Kathleen H. Moriarty, Carter, Ledyard & Milburn, dated December 12, 2005, with respect to StreetTRACKS Gold Trust and Letter from James A. Brigagliano, Assistant Director, Division of Market Regulation to Kathleen H. Moriarty of Carter, Ledyard & Milburn LLP, dated November 17, 2004, with respect to the streetTRACKS Gold Trust.

⁸See Letter from James A. Brigagliano, Esq, Assistant Director, Division of Market Regulation, to Claire P. McGrath, Esq, Vice President and Special Counsel, The American Stock Exchange, dated August 17, 2001-(re: Exemptive Relief for Exchange. Traded Index Funds) ("2001 Class Letter"); Letter from James A. Brigagliano, Esq., Assistant Director, Division of Market Regulation, to Ira Hammerman, Senior Vice President and General Counsel, Securities Industry Association, dated January 3, 2005 (re: No-action Relief From Rule 200(g) of Regulation SHO); Letter from Catherine McGuire, Esq, Chief Counsel, Division of Market Regulation, to the Securities Industry Association Derivative Products Committee, dated November 21, 2005 (re: Expanded Class Relief for ETFs with respect to Section 11(d)(1) of the Exchange Act and Rules 10b-10, 11d1-2, 15c1-5, and 15c1-6 under the Exchange Act) ("SIA Letter"); Letter from James A. Brigagliano, Acting Associate Director, Division of Market Regulation, to Stuart M. Strauss, Esq, Clifford Chance US LLP (October 24, 2006) (re: ETFs comprised of Equity Securities and incorporating relief from certain prior letters) ("Equity ETF Class Letter"); Letter from James A. Brigagliano, Associate Director, Division of Market Regulation, to Benjamin Haskin, Esq., Willkie Farr & Gallagher LLP (April 9, 2007) ("Fixed Income ETF Class Letter") and Letter from Josephine Tao, Assistant Director, Division of Trading and Markets, to Domenick Pugliese, Esq., Paul, Hastings, Janofsky and Walker LLP with respect to ETFs that are comprised of both equity as well as fixed-income securities ("Combination ETF Class Letter") (collectively, "ETF Class Relief or "ETF Class Relief Letters").

extent the Fund operates as an ETF of ETFs since the Fund would not meet the terms of Conditions 2 and 4 of the Equity ETF Class Letter as discussed more fully in Part III herein. In particular, because each Fund will operate as an ETF of ETFs, it would not expect to hold twenty (20) or more "Component Securities" and will hold the Underlying ETF in excess of 25% of its total portfolio value. In addition, the Funds expect to issue Shares in Creation Units (defined below) that are smaller than those described in the Equity ETF Class Relief Letter.⁹ The Trust notes that the Commission has recently issued to an existing ETF substantially identical relief regarding Condition 2, based on representations that are consistent with the Applicants' representations.¹⁰ In addition, the Trust notes that the Commission has previously granted to an existing ETF relief similar to that requested herein regarding Condition 4.¹¹ Notwithstanding the foregoing, Applicants represent that the Underlying ETFs in which the Funds invest meet all conditions set forth in one or more of the ETF Class Relief Letters.

Applicants hereby request, as applicable, exemptions, interpretive or no-action advice regarding Rule 10b-17 and Rules 101 and 102 of Regulation M under the Exchange Act. This Letter is divided into five parts. Part I is a description of the Trust and the Funds. Part II contains a discussion of the dissemination of information regarding Shares. Part III contains a discussion of the ETF Class Relief. Part IV contains the requests for relief and Part V is the conclusion.

PART I

A. The Trust and the Funds

The Trust is an investment company currently consisting of 21 separate exchange traded "index funds" (including the Funds) and one actively-managed ETF. Northern Trust Investments, Inc. (the "Investment Adviser") acts as investment adviser to the Fund. Each Fund intends to qualify annually and to elect to be treated as a regulated investment company ("RIC") under the Internal Revenue Code of 1986, as amended (the "Code").

1. FlexShares Currency Hedged Morningstar DM ex-US Factor Tilt Index Fund

The DM Fund will seek investment results that correspond generally to the performance, before fees and expenses, of the DM Index. The DM Index reflects the performance of a selection of equity securities designed to provide broad exposure to the global developed

⁹ Each Fund will issue Creation Units of at least 25,000 Shares with the value of the initial Creation Unit expected to be \$625,000 at the time of issuance.

¹⁰ See Release No. 34-76193, dated October 19, 2015 (with respect to DBX ETF Trust).

¹¹ See Release No. 34-73298, dated October 3, 2014 (with respect to ProShares Morningstar Alternatives Solution ETF).

equities markets, excluding the U.S., with (i) increased exposure (or a “tilt”) to small-capitalization stocks and value stocks and (ii) currency risk of the securities included in the DM Index hedged against the U.S. dollar on a monthly basis. Small-capitalization and value stocks in the DM Index are weighted slightly more than such stocks would be in an index that is solely market-capitalization weighted, all as determined by Morningstar, Inc. (the “Index Provider”) pursuant to its index methodology. As of October 20, 2015, the DM Index was comprised of 2,945 issues with market capitalizations ranging from \$54.7 million to \$252.8 billion. As of the same date, the DM Index’s five largest constituents (by weighting) were Toyota Motor Corp., Novartis AG, Nestle SA, HSBC Holdings PLC and Roche Holdings AG. As of October 20, 2015, the top five countries (by weighting) represented in the DM Index were Japan (25.5%), Great Britain (19.1%), Canada (7.7%), France (7.45%) and Germany (6.6%). The composition of the DM Index may change over time. The DM Fund intends to obtain exposure to the equity components of the DM Index indirectly by investing in the DM Underlying ETF, which is advised by the Investment Adviser, that invests in the equity securities directly.

The DM Index hedges the relevant Foreign Currencies by selling foreign currency forward contracts at the one-month forward rate published by WM/Reuters. The equity securities in the DM Underlying Index are the same as those included in the DM Index; both the DM Underlying Index and the DM Index utilize the same rules-based methodology to select the equity securities included therein. The only difference between the DM Underlying Index and the DM Index is the currency hedging component included in the DM Index.

The Investment Adviser, on behalf of the DM Underlying ETF, expects to use a representative sampling indexing strategy to seek to track the DM Underlying Index. As such, the Investment Adviser expects to invest, on behalf of the DM Underlying ETF, directly in a representative sample of securities that collectively has an investment profile similar to the component securities of the respective DM Underlying Index. The DM Underlying ETF may or may not hold all of the securities that are included in the DM Underlying Index. The DM Underlying ETF may use a full replication indexing strategy if the Investment Adviser determines that it is in the best interests of the DM Underlying ETF. In such case, the Investment Adviser would invest, directly in the component securities (or a substantial number of the component securities) of the DM Index in substantially the same weightings in which they are represented in the DM Underlying Index.

The DM Fund will invest at least 80% of its total assets (but typically far more) in component securities of the DM Index by indirect investments through the DM Underlying ETF and by entering into forward currency contracts designed solely to hedge

against the DM Fund's exposure to fluctuations between the relevant Foreign Currencies and the U.S. dollar.¹²

The DM Fund's Shares are expected to be listed on the NYSE Arca. The DM Fund's Shares will trade at market prices that may differ to some degree from the net asset value ("NAV") of the Shares. Unlike conventional mutual funds, the DM Fund will issue and redeem Shares on a continuous basis, at NAV, only in large specified blocks of 25,000 Shares, each of which is called a "Creation Unit."

2. FlexShares Currency Hedged Morningstar EM Factor Tilt Index Fund

The EM Fund will seek investment results that correspond generally to the performance, before fees and expenses, of the EM Index. The EM Index reflects the performance of a selection of equity securities designed to provide broad exposure to the global emerging equities markets, with (i) increased exposure (or a "tilt") to small-capitalization stocks and value stocks and (ii) currency risk of the securities included in the EM Index hedged against the U.S. dollar on a monthly basis. Small-capitalization and value stocks in the EM Index are weighted slightly more than such stocks would be in an index that is solely market-capitalization weighted, all as determined by the Index Provider pursuant to its index methodology. As of October 20, 2015, the EM Index was comprised of 2,352 issues with market capitalizations ranging from \$107.9 million to \$253.5 billion. As of the same date, the EM Index's five largest constituents (by weighting) were Samsung Electronics Co., Tencent Holdings Ltd., Taiwan Semiconductor Manufacturing Co. Ltd., China Construction Bank Corp, China Mobile Ltd. As of October 20, 2015, the top five countries (by weighting) represented in the EM Index were China (22.0%), South Korea (16.5%), Taiwan (14.4%), India (9.2%) and South Africa (7.5%). The composition of the EM Index may change over time. The EM Fund intends to obtain exposure to the equity components of the EM Index indirectly by investing in the EM Underlying ETF, which is advised by the Investment Adviser, that invests in the equity securities directly.

The EM Index hedges the relevant Foreign Currencies by selling foreign currency forward contracts at the one-month forward rate published by WM/Reuters. The equity securities in the EM Underlying Index are the same as those included in the EM Index; both the EM Underlying Index and the EM Index utilize the same rules-based methodology to select the equity securities included therein. The only difference between the EM Underlying Index and the EM Index is the currency hedging component included in the EM Index.

¹² The DM Fund's forward currency contracts are "component securities" of the DM Index" for purposes this calculation. While the DM Fund has the ability to invest up to 20% of its assets in instruments not included in the DM Index (as set forth in the DM Fund's registration statement), the DM Fund does not currently expect to invest in instruments other than the DM Underlying ETF and forward currency contracts.

The Investment Adviser, on behalf of the EM Underlying ETF, expects to use a representative sampling indexing strategy to seek to track the EM Underlying Index. As such, the Investment Adviser expects to invest, on behalf of the EM Underlying ETF, directly in a representative sample of securities that collectively has an investment profile similar to the component securities of the respective EM Underlying Index. The EM Underlying ETF may or may not hold all of the securities that are included in the EM Underlying Index. The EM Underlying ETF may use a full replication indexing strategy if the Investment Adviser determines that it is in the best interests of the EM Underlying ETF. In such case, the Investment Adviser would invest, directly in the component securities (or a substantial number of the component securities) of the EM Index in substantially the same weightings in which they are represented in the EM Underlying Index.

The EM Fund will invest at least 80% of its total assets (but typically far more) in component securities of the EM Index by indirect investments through the EM Underlying ETF and by entering into forward currency contracts designed solely to hedge against the EM Fund's exposure to fluctuations between the relevant Foreign Currencies and the U.S. dollar.¹³

The EM Fund's Shares are expected to be listed on the NYSE Arca. The EM Fund's Shares will trade at market prices that may differ to some degree from the net asset value ("NAV") of the Shares. Unlike conventional mutual funds, the EM Fund will issue and redeem Shares on a continuous basis, at NAV, only in large specified blocks of 25,000 Shares, each of which is called a "Creation Unit."

B. The Investment Adviser, Distributor and Authorized Participants

1. Investment Adviser

The Investment Adviser acts as the Fund's investment adviser pursuant to an advisory agreement with the Trust on behalf of the Fund (the "Investment Advisory Agreement"). The Investment Adviser, located at 50 S. LaSalle St., Chicago, IL 60603, is registered as an investment adviser with the SEC. The Investment Adviser is a subsidiary of The Northern Trust Company ("TNTC") and an indirect subsidiary of Northern Trust Corporation. As of June 30, 2015, Northern Trust Corporation, through its affiliates, had assets under investment management of \$945.6 billion and assets under custody of \$6.18 trillion.

2. Distributor and Authorized Participants

¹³ The EM Fund's forward currency contracts are "component securities" of the EM Index" for purposes this calculation. While the EM Fund has the ability to invest up to 20% of its assets in instruments not included in the EM Index (as set forth in the EM Fund's registration statement), the EM Fund does not currently expect to invest in instruments other than the EM Underlying ETF and forward currency contracts.

The Trust has appointed Foreside Fund Services, LLC, a broker-dealer registered under the Exchange Act and a member of the Financial Industry Regulatory Authority, Inc. ("FINRA"), to act as the distributor and principal underwriter of the Creation Units of Shares. The Distributor will distribute Creation Units of the Shares on an agency basis. The Trust may appoint a different Distributor in the future. Entities that have entered into an agreement with the Distributor to become "Authorized Participants" may place orders with the Distributor to purchase or redeem Creation Units, as described in Part I. D. below.

C. Shares

As described in subparts I.D. through I.F. below, each Fund will issue and redeem its Shares in aggregations of 25,000 Shares or multiples thereof ("Creation Units"). Shares will not be individually redeemable. The Trust intends that the initial NAV of Shares will be established at a level convenient for trading purposes. Purchasers of Creation Units will be able to unbundle the Creation Units into the individual Shares comprising such Creation Unit.

D. Purchasing Shares

The Trust will issue Shares at NAV only in a large specified number of Shares called a "Creation Unit" or multiples thereof. A Creation Unit consists of 25,000 Shares. Creation Unit transactions are typically conducted in exchange for the deposit or delivery of in-kind securities and/or cash constituting a substantial replication, or a representation, of the securities included in each Fund's benchmark Index.

Individual Shares of the Funds may only be purchased and sold in secondary market transactions through brokers. Shares of each Fund are expected to be listed for trading on NYSE Area and, because Shares will trade at market prices rather than NAV, Shares of each Fund may trade at a price greater than or less than NAV.

E. Procedures Applicable to Purchases of the Funds

In order to purchase Creation Units of each Fund, an investor must generally deposit a basket of securities and/or instruments (the "Deposit Securities") together with a deposit of a specified cash payment (the "Cash Component"), subject to changes from time to time by the Investment Adviser with a view to the investment objective of the Fund. Together, the Deposit Securities and Cash Component constitute the "Fund Deposit," which represents the minimum initial and subsequent investment amount for a Creation Unit of each Fund.

The function of the Cash Component is to compensate for any differences between the NAV per Share per Creation Unit and the market value of the Deposit Amount (as defined below). The Cash Component would be an amount equal to the difference between the NAV of the Shares (per Creation Unit) and the "Deposit Amount," which is

an amount equal to the market value of the Deposit Securities. If the Cash Component is a positive number (the NAV per Creation Unit exceeds the Deposit Amount), the Authorized Participant will deliver the Cash Component. If the Cash Component is a negative number (the NAV per Creation Unit is less than the Deposit Amount), the Authorized Participant will receive the Cash Component.

The Investment Adviser through the National Securities Clearing Corporation ("NSCC"), makes available on each business day, prior to the opening of business (subject to amendments) on the NYSE Arca (currently 9:30 a.m., Eastern time), the identity and the required number of each Deposit Security and the amount of the Cash Component (or Cash Deposit) to be included in the current Fund Deposit (based on information at the end of the previous business day).

To be eligible to place orders with the Distributor and to create or redeem a Creation Unit of each Fund, an entity must be: (i) a "Participating Party," i.e. a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the NSCC (the "Clearing Process"), a clearing agency that is registered with the SEC; or (ii) a participant of DTC ("DTC Participant") and must have executed an agreement with the Distributor, with respect to creations and redemptions of Creation Units ("Authorized Participant Agreement").

All orders to create Creation Units of the Funds, subject to certain exceptions and in all cases subject to the terms of the applicable Authorized Participant Agreement, must be received by the Distributor in proper form no later than the closing time of the regular trading session of the NYSE Arca ("Closing Time") (ordinarily 4:00 p.m., Eastern time) in each case on the date such order is placed for creation of Creation Units to be effected based on the NAV of shares of the Fund as next determined after receipt of an order in proper form. Orders requesting substitution of a "cash-in-lieu" amount or a Cash Deposit (collectively, "Non-Standard Orders"), must be received by the Distributor no later than 3:00 p.m., Eastern time. On days when the NYSE Arca closes earlier than normal (such as the day before a holiday), the Fund requires standard orders to create Creation Units to be placed by the earlier closing time and the Non-Standard Orders to create Creation Units must be received no later than one hour prior to earlier closing time.

Notwithstanding the foregoing, the Trust may, but is not required to, permit Non-Standard Orders until 4:00 p.m., Eastern time, or until the market close (in the event the NYSE Arca closes early).

No creation transaction fee is charged for creations transactions in kind. In the case of cash creations or where the Trust permits or requires a creator to substitute cash in lieu of depositing a portion of the Deposit Securities, the creator may be assessed a variable charge up to 3% of the amount of the Deposit Securities to compensate each Fund for the costs associated with purchasing the applicable securities. As a result, in order to seek to replicate the in-kind creation order process, the Trust expects to purchase, in the secondary market or otherwise gain exposure to, the portfolio securities that could have

been delivered as a result of an in-kind creation order pursuant to local law or market convention, or for other reasons ("Market Purchases"). In such cases where the Trust makes Market Purchases, the Authorized Participant will reimburse the Trust for, among other things, any difference between the market value at which the securities and/or financial instruments were purchased by the Trust and the cash in lieu amount (which amount, at the Investment Adviser's discretion, may be capped), applicable registration fees, brokerage commissions and certain taxes. The Investment Adviser may adjust the transaction fee to the extent the composition of the creation securities changes or cash in lieu is added to the Cash Component to protect ongoing shareholders. Creators of Creation Units are responsible for the costs of transferring the securities constituting the Deposit Securities to the account of the Trust.

Creation Units may be created in advance of the receipt by the Trust of all or a portion of the Fund Deposit. In such cases, the Authorized Participant will remain liable for the full deposit of the missing portion(s) of the Fund Deposit and will be required to post collateral with the Trust consisting of cash at least equal to a percentage of the marked-to-market value of such missing portion(s) that is specified in the Authorized Participant Agreement. The Trust may use such collateral to buy the missing portion(s) of the Fund Deposit at any time and will subject such Authorized Participant to liability for any shortfall between the cost to the Trust of purchasing such securities and the value of such collateral. The Trust will have no liability for any such shortfall. The Trust will return any unused portion of the collateral to the Authorized Participant once the entire Fund Deposit has been properly received by the Custodian and deposited into the Trust.

F. Procedures Applicable to Redemptions of the Funds

Shares of each Fund may be redeemed only in Creation Units at their NAV next determined after receipt of a redemption request in proper form on a business day and only through a Participating Party or DTC Participant who has executed an Authorized Participant Agreement. The Investment Adviser, through the NSCC, makes available immediately prior to the opening of business on the NYSE Arca (currently 9:30 a.m., Eastern time) on each business day, the identity of each Fund's securities and/or an amount of cash that will be applicable (subject to possible amendment or correction) to redemption requests received in proper form on that day.

Unless cash only redemptions are available or specified for the Funds, the redemption proceeds for a Creation Unit generally consist of a portfolio of securities ("Fund Securities") — as announced on the business day of the request for a redemption order received in proper form — plus cash in an amount equal to the difference between the NAV of the Shares being redeemed, as next determined after a receipt of request in proper form, and the value of the Fund Securities, less the variable fees described below. Notwithstanding the foregoing, the Trust will substitute a "cash-in-lieu" amount to replace any Fund Security that is a non-deliverable instrument. The amount of cash paid out in such cases will be equivalent to the value of the instrument listed as a Fund

Security. In the event that the Fund Securities have a value greater than the NAV of the Shares, a compensating cash payment equal to the difference is required to be made by an Authorized Participant.

No creation redemption fee is charged for redemptions in kind. A variable charge for cash redemptions or partial cash redemptions (when cash redemptions are permitted or required for a Fund) up to 2% of the amount redeemed may also be imposed to compensate the Fund for the costs associated with selling the applicable securities. As a result, in order to seek to replicate the in-kind redemption order process, the Trust expects to sell, in the secondary market, the portfolio securities or settle any financial instruments that may not be permitted to be re-registered in the name of the Participating Party as a result of an in-kind redemption order pursuant to local law or market convention, or for other reasons ("Market Sales"). In such cases where the Trust makes Market Sales, the Authorized Participant will reimburse the Trust for, among other things, any difference between the market value at which the securities and/or financial instruments were sold or settled by the Trust and the cash in lieu amount (which amount, at the Investment Adviser's discretion, may be capped), applicable registration fees, brokerage commissions and certain taxes ("Transaction Costs"). The Investment Adviser may adjust the transaction fee to the extent the composition of the redemption securities changes or cash in lieu is added to the Cash Component to protect ongoing shareholders. In no event will fees charged by each Fund in connection with a redemption exceed 2% of the value of each Creation Unit.

PART II

A. Dissemination of Information about Creation and Redemption Baskets

As discussed above, the names and required number of shares of each component in the Creation Basket and Redemption Basket, as well as the Cash Component and Cash Redemption Amount, to be tendered in connection with the issuance or redemption, respectively, of Shares of Creation Units will be made available through NSCC, DTC or the Distributor on each business day, prior to the opening of trading on NYSE Arca.

B. Dissemination of Information About the Funds' Portfolio Securities

The prices of each Fund's portfolio securities ("Portfolio Securities") will be readily available from, as applicable, automated quotation systems, public sources, such as newspapers and other publications, and from a variety of on-line information services, such as Quotron, Bloomberg or Reuters, and other pricing services.

C. Dissemination of Information about Shares

In order to provide current Share pricing information for each Fund for use by investors, professionals and persons wishing to create or redeem Shares, (i) the Listing Exchange

will make available the market value of a Share, and (ii) the Listing Exchange or a market data vendor will disseminate every 15 seconds throughout the trading day a calculation of the intraday indicative value of a Share through the facilities of the Consolidated Tape Association. Comparing these two figures allows an investor to determine whether, and to what extent, Shares are selling at a premium or a discount to NAV.

The Funds' website ("Website") will also contain the following information on a per Share basis, for each Fund: (i) the prior business day's closing NAV and closing market price (based on the mid-point of the bid-asked spread at the time the Fund's NAV is calculated or the close of ETF trading on the Listing Exchange ("Bid-Asked Price")), and a calculation of the premium or discount of the Bid-Asked Price in relation to the closing NAV; and (2) data for a period covering at least the four previous calendar quarters (or life of the Fund, if shorter) indicating how frequently the Fund's Shares traded at a premium or discount to NAV based on the daily Bid-Asked Price and closing NAV, and the magnitude of such premiums and discounts. The Website will also display the Prospectus, and additional information relating to each Fund's performance and portfolio holdings, that is updated on a daily basis.

PART III

A. Comparison of the Funds to the Other ETFs Which Have Sought Similar Commission Action and Received Similar Relief

Applicants believe that the relief requested herein is substantially identical to the relief granted by the Commission to the Prior ETFs of ETFs and is substantially similar to the relief granted by the Commission to the Prior ETFs.

B. Applicability of the ETF Class Relief to the Funds

The ETF Class Relief provides exemptive and/or no-action or interpretive relief with respect to Rule 10b-17, as well as Rules 101 and 102 of Regulation M, to any ETF that meets the criteria set forth in the Equity ETF Class Relief Letter. The Equity ETF Class Relief Letter sets forth five criteria that an ETF must meet in order to rely upon the ETF Class Relief. These are:

1. "The ETF Shares are issued by an open-end investment company or unit investment trust registered with the Commission under the 1940 Act;

2. The ETF consists of a basket of twenty or more Component Securities,¹⁴ with no one Component Security constituting more than 25% of the total value of the ETF;¹⁵
3. At least 70% of the ETF must be comprised of Component Securities that meet the minimum public float and minimum average daily trading volume thresholds under the ‘actively-traded securities’ definition found in Regulation M for excepted securities during each of the previous two months of trading prior to the formation of the relevant ETF; provided, however, that if the ETF has 200 or more Component Securities then 50% of the Component Securities must meet the actively-traded securities thresholds;¹⁶
4. ETF shares are to be issued and redeemed in Creation Unit aggregations of 50,000 shares or such other amount where the value of a Creation Unit is at least \$1 million at the time of issuance; and
5. The ETF must be managed to track a particular index all the components of which have publicly available last sale trade information.¹⁷ The intra-day proxy value of the ETF per share and the value of the ‘benchmark’ index must be publicly disseminated by a major market data vendor throughout the trading day.”¹⁸

¹⁴ For purposes of the Commission’s response, “Component Securities” are defined as individual securities that comprise the ETF basket, *e.g.*, securities that are assembled to replicate the particular index that the ETF tracks.

¹⁵ For purposes of the Commission’s response, whether any one Component Security constitutes more than 25% of the total value of the ETF shall be determined as of the most recent balancing of the ETF’s reference securities index.

¹⁶ While each Fund’s forward currency contracts do not meet these thresholds, Applicants expect that those contracts will only represent a very small portion of each Fund’s assets. While the exact proportions are dependent on movements in the applicable currency markets, as a practical matter, each Fund is likely to have the vast majority of its assets invested in equities (*i.e.*, investments in each Underlying ETF) rather than forward currency contracts. For those reasons, Applicants represent that this condition will be satisfied even after giving effect to each Fund’s forward currency contracts.

¹⁷ The equities included in each Underlying Index all have publicly available last sale information. Each Index’s currency hedging component is valued based on publicly available rates published by WM Reuters as of 4:00 PM Greenwich Mean time (which are the rates used by each Fund in calculating its net asset value). These rates provide pricing transparency with respect to each Fund’s forward currency contracts.

¹⁸ *See* Equity ETF Class Relief Letter at 2.

Because each Fund intends to operate as an ETF of ETFs, each Fund will meet all of the criteria of the Equity ETF Class Relief Letter set forth above, with the exception of the requirements in Conditions 2 and 4 above. As an ETF of ETFs, each Fund would not intend to hold "a basket of twenty or more" Index Constituents and expects to hold the Underlying ETF in excess of 25% of the total value of its portfolio; the Fund therefore will be unable to meet the requirements of Condition 2 above. In addition, each Fund will issue Shares in Creation Units of at least 25,000 Shares that are not expected to have a value of at least \$1 million at the time of issuance.¹⁹ Therefore, the Fund will not meet Condition 4 above.²⁰

The Underlying ETF in which each Fund invests will meet all conditions set forth in one or more of the ETF Class Relief Letters. Further, Applicants hereby represent that: (a) the arbitrage mechanism will be facilitated by the transparency of each Fund's portfolio and the availability of the intra-day indicative value, the liquidity of securities and other assets²¹ held by each Fund, ability to acquire such securities, as well as the arbitrageurs' ability to create workable hedges; (b) each Fund will invest at least 80% of its total assets (but typically far more) in component securities of its Index by indirect investments through an Underlying ETF and by entering into forward currency contracts designed solely to hedge against the Fund's exposure to fluctuations between the relevant Foreign Currencies and the U.S. dollar; (c) each Fund will invest in securities that will facilitate an effective and efficient arbitrage mechanism and the ability to create workable hedges;²² (d) the Applicants believe that arbitrageurs are expected to take advantage of price variations between each Fund's market price and its NAV; and (e) a close alignment between the market price of Shares and each Fund's NAV is expected. Therefore, Applicants hereby request that the Commission grant exemptive, interpretive or no-action relief from Rule 10b-17 and Rules 101 and 102 of Regulation M as discussed below. As noted above, this relief is substantially identical to the relief granted to the Prior ETFs of ETFs.

PART IV

A. Requests for Relief - Introduction

¹⁹ Each Fund expects to initially issue Shares in Creation Unit aggregations with a value of \$625,000 per Creation Unit.

²⁰ The Trust notes that the Commission has previously granted to an existing ETF relief similar to that requested herein regarding Condition 4. *See* Release No. 34-73298, dated October 3, 2014 (with respect to ProShares Morningstar Alternatives Solution ETF's issuance of Creation Units of 10,000 shares).

²¹ Applicants believe the applicable currency markets are sufficiently liquid to allow the arbitrage mechanism to function effectively with respect to the Fund's currency hedging component.

²² Applicants do not believe the Fund's currency hedging component will have a material impact on the ability of arbitrageurs or other market participants to create workable hedges. *See* notes 17 and 21, *supra*.

The Trust, on behalf of itself, the Funds, the Listing Exchange, other Markets, the Distributor, Authorized Participants and other persons or entities engaging in transactions in the Shares, requests that the Commission grant exemptions, interpretive or no-action advice regarding Rules 10b-17 and Rules 101 and 102 of Regulation M under the Exchange Act.

1. Rule 10b-17

Rule 10b-17 requires an issuer of a class of publicly-traded securities to give notice of certain specified actions (e.g., dividends, stock splits, rights offerings) relating to such class of securities in accordance with Rule 10b-17(b). Specifically, Rule 10b-17(b)(1)(v)(a-b) requires such advance notice to specify (a) for cash distributions, the amount of cash to be paid or distributed per share²³, and (b) for in-kind distributions, the amount of the security outstanding immediately prior to and immediately following the dividend or distribution and the rate of such dividend or distribution. Paragraph (c) of the Rule, however, states that the Rule shall not apply to redeemable securities issued by open-end investment companies and unit investment trusts registered under the 1940 Act. Except for the fact that Shares must be redeemed in Creation Units, the Trust is intended to function like any other open-end fund continuously offering its shares. It is in recognition of the foregoing that the Division of Investment Management issued an order upon which the Trust may rely permitting the Trust to issue shares with limited redeemability while still treating the Trust like any other open-end investment company.

In addition, compliance with Rule 10b-17(b)(1)(v)(a-b) would be impractical in light of the nature of each Fund. This is because it is not possible for each Fund to accurately project ten days in advance what dividend, if any, would be paid on a particular record date. Because of this inability to project the amount of any dividend ten days in advance of a record date, applying the timing requirements of 10b-17(b)(1)(v)(a-b) to each Fund would increase the chances that the Fund would mis-estimate the amount of any such dividend.²⁴

²³ The Rule permits a reasonable approximation of the per share distribution to be provided if exact amounts cannot be given because of existing conversion rights which may be exercised during the notice period and may affect the per share cash distribution, as long as the actual per share distribution is subsequently provided on the record date.

²⁴ As a RIC, each Fund is required by the Code to distribute at least 98% of its ordinary income and capital gains during the calendar year. If a Fund declares too small a dividend, it will be charged an excise tax. If it declares too large a dividend, the excess could be considered a return of capital to investors. To avoid an over- or under-distribution of ordinary income, RICs, including the Funds, must estimate: (i) the amount of ordinary income to be earned during the period from the date the dividend is declared to December 31; and (ii) the number of shares that will be outstanding as of the record date. Requiring each Fund to declare the amount of a dividend ten days in advance of the record date would increase the period for estimating ordinary income and the number of outstanding shares, and thus increase the risk of an over- or under-distribution. Requiring each Fund to declare the amount of a dividend ten days in advance of the record date also would increase the chance that the Fund would over- or under-distribute capital gains. Further,

Each Fund represents that it will comply with the other requirements of Rule 10b-17. Each Fund further represents that, as soon as practicable following the end of trading on the NYSE Arca on the day prior to the ex-date (but not later than the last time at which the NYSE Arca accepts such information on such date) with respect to any distribution to be made by the Fund, the Fund will provide notice to the NYSE Arca containing the information required in Rule 10b-17(b)(1)(v)(a-b).

In the proposing release for Rule 10b-17 (the "Proposing Release")²⁵, the Commission stated:

It has been the experience of the Commission and the securities industry that the failure of a publicly held company to provide a timely announcement of the record date with respect to these types of rights has had a misleading and deceptive effect on both the broker-dealer community and the investing public. As a direct result of such failure, purchasers and their brokers may have entered into and settled securities transactions without knowledge of the accrual of such rights and were thus unable to take necessary steps to protect their interests. Further, sellers who have received the benefits of such rights as recordholders on the specified record date after having disposed of their securities, have also disposed of the cash or stock dividends or other rights received as such recordholders without knowledge of possible claims of purchasers of the underlying security to those rights....In many instances, innocent buyers and sellers have suffered losses. In addition, some issuers have made belated declarations of stock splits or dividends with the apparent knowledge that this action would have a manipulative effect on the market for their securities.

Applicants respectfully submit that none of these concerns raised by the Commission in the Proposing Release²⁶ will be implicated if the requested relief is granted. As set forth above, each Fund will comply with the requirements of Rule 10b-17 except for the timing requirements for notification of the actual amounts of the distributions under Rule 10b-17(b)(1)(v)(a-b). Accordingly, market participants will receive timely notification of the existence and timing of a pending distribution, and will be able to plan their transactions

unlike ordinary income, each Fund does not have the problem of estimating the aggregate amount of capital gains it will earn between declaration date and year-end, but as noted above, requiring each Fund to declare the amount of a dividend ten days in advance of the record date would increase the chance that the Fund would mis-estimate the number of outstanding shares. This in sum, would increase the chance that each Fund would mis-estimate the per share amount of capital gains each must distribute.

²⁵ Exchange Act Release No. 9076 (February 17, 1971).

²⁶ The foregoing concerns were largely reiterated by the Commission in the release adopting Rule 10b-17. See Exchange Act Release No. 9192 (June 7, 1971) (the "Adopting Release").

in Shares accordingly. As a result, there should be no confusion or opportunity for manipulation regarding parties' rights to receive distributions, which concerns inspired the Commission to propose and adopt Rule 10b-17. Therefore, the requested relief concerning the timing requirements of Rule 10b-17(b)(1)(v)(a-b) is consistent with the purposes underlying the adoption of Rule 10b-17 as outlined in the Proposing Release and Adopting Release. The exemption under paragraph (c) of Rule 10b-17, which covers open-end investment companies with fully redeemable shares, thus should be applicable to each Fund with respect to the timing requirements of Rule 10b-17(b)(1)(v)(a-b).²⁷

2. Rule 101 of Regulation M

Applicants respectfully request that the Commission grant interpretive relief from Rule 101, as discussed below, to permit persons participating in a distribution of Shares of each Fund to bid for or purchase, redeem or engage in other secondary market transactions in such Shares.

Generally, Rule 101 of Regulation M is an anti-manipulation regulation that, subject to certain exemptions, prohibits any "distribution participant" and "its affiliated purchasers" from bidding for, purchasing from, or attempting to induce any person to bid for or purchase, any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of Rule 101 apply to underwriters and prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in such distribution.

Applicants understand that while broker-dealers that: (i) tender Fund Deposits to the Trust in return for Shares of each Fund in Creation Units; or (ii) redeem Shares of each Fund in Creation Units for receipt of Fund Securities and cash (or cash only) held by each Fund generally will not be part of a syndicate or selling group, and while no broker-dealer will receive fees, commissions or other remuneration from the Trust for the sale of Shares of the Funds in Creation Units, under certain circumstances such broker-dealers could be deemed to be "underwriters" or "distribution participants" as such terms are defined in Rule 100(b).

Paragraph (c)(4) of Rule 101 exempts from its application, *inter alia*, redeemable securities issued by an open-end management investment company (as such terms are used in the 1940 Act). The Trust is registered as an open-end management investment company under the 1940 Act. However, as discussed above, individual Shares are not redeemable except in Creation Units. Due to the redeemability of the Shares in Creation Units, there should be little disparity between the Shares' market price and their NAV per

²⁷ The relief being requested is analytically consistent with the Division of Market Regulation Staff Legal Bulletin No. 9, as revised on September 10, 2010, which stated that, subject to certain conditions, actively managed exchange traded funds ("Active ETFs") could rely on the exceptions in Rules 101(c)(4) and 102(d)(4) of Regulation M under the Exchange Act which are only available to open-end investment companies, notwithstanding the fact that shares of Active ETFs are redeemable only in Creation Units.

Share. Accordingly, the rationale for exempting redeemable securities of open-end management investment companies from the application of Rule 101 is equally applicable to the Shares. Although redemption is subject to the condition of tendering the appropriate number of Shares of Creation Units, the Trust otherwise will continue to function as an open-end fund continuously offering its Shares.

It is in recognition of the special nature of such offerings that open-end management investment company and unit investment trust securities are exempted under paragraph (c)(4). Without such an exemption, they could not operate as intended. In view of the foregoing, the Trust requests that the Commission confirm that as a result of registration of the Trust as an open-end management investment company and the redeemable nature of the Shares in Creation Units, transactions in the Shares would be exempted from Rule 101 on the basis of the exception contained in (c)(4) of such Rule.

The purpose of Rule 101 is to prevent persons from conditioning the market to facilitate a distribution. Creation Units of Shares may be created and redeemed, in kind (and/or in cash in certain cases) at NAV, on any business day. Holders of Shares also have the benefit of intra-day secondary market liquidity by virtue of their Market listing. Thus, the secondary market price of Shares should not vary substantially from the NAV of such Shares. Because of the redeemability of Shares in Creation Units, coupled with the open-end nature of the Trust, any significant disparity between the market price of the Shares and their net asset value should be eliminated by arbitrage activity. Because the NAV of Shares is largely based on the market value of the relevant Fund holdings, transactions involving Shares (creations from and redemptions with the Trust, as well as purchases and sales in the secondary market) will not affect NAV. Similarly, such transactions should not have a significant effect on the market price of Shares.

Applicants request that the Commission clarify that the tender of the Shares to each Fund for redemption and the receipt of Fund Securities upon redemption does not constitute a bid for or purchase of any of such securities, or an "attempt to induce any person to bid for or purchase a covered security, during the applicable restricted period" for the purposes of Rule 101. Redemption entails no separate bid for any of the Fund Securities. As described above, following notice of redemption, the Fund will deliver the specified Fund Securities after the redemption request is received in proper form, except in those cases where redemption proceeds are paid entirely in cash. Absent unusual circumstances, the Fund will not purchase Fund Securities in the secondary market to fulfill a redemption request. Therefore, redemptions of Shares cannot be expected to affect the market price of the Fund Securities.

In view of the lack of any special financial incentive to create Creation Units of Shares, combined with a predictable lack of any meaningful potential for the issuance and the secondary market trading of Shares to affect significantly Shares pricing, application of Rule 101 to a broker-dealer or other person who may be participating in a distribution of Shares or securities held by each Fund is unnecessary and inappropriate, and could

unnecessarily hinder broker-dealers or other persons in their creation and redemption activities, in their day-to-day ordinary business of buying and selling Shares and thus undermine the potential beneficial market effects of Shares trading discussed throughout this letter.

3. Rule 102 of Regulation M

Applicants respectfully request that the Commission confirm that, as a result of registration of the Trust as an open-end management investment company and the redeemable nature of the Shares in Creation Units, for the reasons previously stated under our request for relief under Rule 101(c)(4), transactions in Shares would be exempted from Rule 102 on the basis of the exception contained in paragraph (d)(4) of such Rule. Application of Rule 102 in this context would not further the anti-manipulative purposes of the Rule. Alternatively, the Trust requests that the Commission grant an exemption under paragraph (e) of Rule 102 to such effect. Application of Rule 102 in this context would not further the anti-manipulative purpose of this Rule.

The purpose of Rule 102 is to prevent persons from manipulating the price of a security during a distribution and to protect the integrity of the offering process by prohibiting activities that could artificially influence the market for that particular security.

For the reasons described in connection with the requested Rule 101 relief, redemption transactions and secondary market transactions in the Shares are not viable means to manipulate the price of a portfolio security held by each Fund during a distribution of such security. The Trust will redeem the Creation Units of Shares at the NAV of the Shares. Although Shares are traded on the secondary market, Shares may only be redeemed in Creation Units. Thus, the Trust believes that the redemption by the Trust of the Shares of each Fund at NAV in consideration principally for Portfolio Securities held by the Fund does not involve the abuses that Rule 102 was intended to prevent.

PART V

A. Conclusion

Based on the foregoing, the Trust respectfully requests that the Commission and the Division of Trading and Markets grant the relief requested herein. The forms of relief requested are virtually identical to those actions which the Commission and the Division of Trading and Markets have taken in similar circumstances.

Thank you for your consideration of this request. Should you have any questions or require additional information, please do not hesitate to call the undersigned at 312-569-1167, or in my absence, Diana McCarthy at 215-988-1146.

Very truly yours,

A handwritten signature in black ink that reads "Veena K. Jain". The signature is written in a cursive style with a large, prominent initial "V".
