(the “Exchange” or “BZX”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Exchange has designated the proposed rule change as one establishing or changing a member due, fee, or other charge imposed by the Exchange under Section 19(b)(3)(A)(ii) of the Act³ and Rule 19b-4(f)(2) thereunder,⁴ which renders the proposed rule change effective upon filing with the Commission. II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Fee Schedule to adopt a new tier under footnote 1 called the Cross-Asset Add Volume Tier.

Currently, with respect to the Exchange's equities trading platform ("BZX Equities") the Exchange determines the liquidity adding rebate that it will provide to Members using the Exchange's tiered pricing structure. Under such pricing structure, a Member will receive a rebate of anywhere between \$0.0020 and \$0.0034 per share executed, depending on the volume tier for which such Member qualifies. Included amongst the volume tiers offered by the Exchange are various tiers for purposes of BZX Equities pricing, which require participation on the Exchange's options platform ("BZX Options") and are generally referred to as "Cross-Asset Tiers". For instance, pursuant to current footnote 12 of the Fee Schedule, the Exchange offers a Cross-Asset Tape B Tier, which provides an enhanced rebate of \$0.0028 [sic] per share on orders that add liquidity in Tape B securities submitted by Members with: (1) a Tape B Step-Up Add

TCV⁵ from February 2015 equal to or greater than 0.06%, and (2) Options Market Maker Add TCV⁶ equal to or greater than 0.75%.

In connection with the proposed tier described below, the Exchange proposes to adopt a definition for Options Customer Add TCV that is similar to the definition of Options Market Maker Add TCV set forth on the Exchange's Fee Schedule. As proposed, "Options Customer Add TCV" for purposes of equities pricing would mean "ADAV resulting from Customer orders as a percentage of TCV, using the definitions of ADAV, Customer and TCV as provided under the Exchange's fee schedule for BZX Options."

The Exchange proposes to adopt a new tier under footnote 1 titled the "Cross-Asset Add Volume Tier." Under the Cross-Asset Add Volume Tier, the Exchange is proposing to provide a rebate of \$0.0028 per share to Members with: (1) an ADAV as a percentage of TCV equal to or greater than 0.15%; and (2) an Options Customer Add TCV equal to or greater than 0.10%. As is the case with any other rebates on the Fee Schedule, to the extent that a Member qualifies for higher rebates than those provided under the proposed Cross-Asset Add Volume Tier, the higher rebates shall apply.

Implementation Date

The Exchange proposes to implement these amendments to its Fee Schedule immediately.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the objectives of Section 6 of the Act,⁷ in general, and furthers the objectives of Section 6(b)(4),⁸ in particular, as

⁵ As defined in the Exchange's Fee Schedule.

⁶ Id.

it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities. The Exchange also notes that it operates in a highly-competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive. The proposed rule change reflects a competitive pricing structure designed to incent market participants to direct their order flow to the Exchange. The Exchange believes that the proposed tier is equitable and non-discriminatory in it would apply uniformly to all Members. The Exchange believes the rates remain competitive with those charged by other venues and, therefore, reasonable and equitably allocated to Members.

Volume-based rebates and fees such as the proposed Cross-Asset Add Volume Tier have been widely adopted by equities and options exchanges and are equitable because they are open to all Members on an equal basis and provide additional benefits or discounts that are reasonably related to the value to an exchange's market quality associated with higher levels of market activity, such as higher levels of liquidity provision and/or growth patterns, and introduction of higher volumes of orders into the price and volume discovery processes.

The Exchange believes that the proposal to add a Cross-Asset Add Volume Tier is a reasonable, fair and equitable, and not unfairly discriminatory allocation of fees and rebates because it will provide Members with an additional incentive to reach certain thresholds on both BZX Equities and BZX Options. The increased liquidity from this proposal also benefits all investors by deepening the BZX Equities and BZX Options liquidity pools, offering additional flexibility for all investors to enjoy cost savings, supporting the quality of price discovery, promoting market transparency and improving investor protection. Such pricing programs

⁸ 15 U.S.C. 78f(b)(4).

thereby reward a Member's growth pattern on the Exchange and such increased volume increases potential revenue to the Exchange, and will allow the Exchange to continue to provide and potentially expand the incentive programs operated by the Exchange. To the extent a Member participates on the Exchange but not on BZX Options, the Exchange does believe that the proposal is still reasonable, equitably allocated and non-discriminatory with respect to such Member based on the overall benefit to the Exchange resulting from the success of BZX Options. As noted above, such success allows the Exchange to continue to provide and potentially expand its existing incentive programs to the benefit of all participants on the Exchange, whether they participate on BZX Options or not. The proposed pricing program is also fair and equitable in that membership in BZX Options is available to all market participants which would provide them with access to the benefits on BZX Options provided by the proposed changes, as described above, even where a member of BZX Options is not necessarily eligible for the proposed increased rebates on the Exchange. Further, the proposed changes will result in Members receiving either the same or an increased rebate than they would currently receive.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe its proposed amendment to its Fee Schedule would impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe that the proposed change represents a significant departure from previous pricing offered by the Exchange or pricing offered by the Exchange's competitors. Additionally, Members may opt to disfavor the Exchange's pricing if they believe that alternatives offer them better value. Accordingly, the Exchange does not believe that the proposed change will impair the ability of Members or competing venues to maintain their competitive standing in the financial markets.

The Exchange notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee structures to be unreasonable or excessive. The proposed changes are generally intended to enhance the rebates for liquidity added to the Exchange, which is intended to draw additional liquidity to the Exchange. The Exchange does not believe the proposed amendments would burden intramarket competition as they would be available to all Members uniformly.

The Exchange does not believe that the proposed new Cross-Asset Add Volume Tier would burden competition, but instead, enhances competition, as it is intended to increase the competitiveness of and draw additional volume to the Exchange.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from Members or other interested parties.
