A. <u>Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change</u>

1. Purpose

On Monday, October 19, 2009 the Exchange submitted a proposed rule change with the Securities and Exchange Commission ("Commission") to (i) extend the Penny Pilot Program in options classes ("Penny Pilot Program") previously approved by the Commission through December 31, 2010; (ii) expand the number of classes included in the Penny Pilot Program; and (iii) replace on a semi-annual basis any Penny Pilot Program classes that have been delisted.⁴

The top 300 most actively traded multiply listed options classes in the prior six calendar months⁵ preceding their addition to the Penny Pilot Program that are not yet included in the Penny Pilot Program will be phased-in to the Penny Pilot Program over four successive quarters with 75 classes added in each of November 2009, February 2010, May 2010, and August 2010.⁶ Options classes with high premiums will be excluded for the quarterly additions.⁷

See Securities and Exchange Act Release No. 60886 (October 27, 2009) (SR-BX-2009-067). This proposal was effective immediately upon filing.

For purposes of assessing national average daily volume the Exchange will use data compiled and disseminated by the Options Clearing Corporation.

The quarterly additions will be effective on November 2, 2009, February 1, 2010, May 3, 2010 and August 2, 2010, respectively. For purposes of identifying the classes to be added per quarter, the Exchange shall use data from the prior six calendar months preceding the implementation month, except that the month immediately preceding their addition to the Pilot would not be utilized for purposes of the six month analysis. For example, the quarterly additions to be added on November 2, 2009 shall be determined using data from the six month period ending September 30, 2009.

The threshold for designation as "high priced" at the time of selection of new classes to be included in the Penny Pilot Program is \$200 per share or a calculated index value of
