## Rules of Cboe EDGX Exchange, Inc.

\* \* \* \* \*

## Rule 11.11. Routing to Away Trading Centers

(a)-(f) No change.

(g) Routing Options. The System provides a variety of routing options. Routing options may be combined with all available order types and Times-in-Force instruction, with the exception of order types and Times-in-Force instruction whose terms are inconsistent with the terms of a particular routing option. The System will consider the quotations only of accessible Trading Centers. The term “System routing table” refers to the proprietary process for determining the specific trading venues to which the System routes orders and the order in which it routes them. The Exchange reserves the right to route orders simultaneously or sequentially, maintain a different System routing table for different routing options and to modify the System routing table at any time without notice. The System routing options are:

(1)-(9) No change.

[(10) SWPB. SWPB is a routing option under which an order checks the System for available shares and then is sent to only Protected Quotations and only for displayed size. To the extent that any portion of the routed order is unexecuted, the remainder is posted to the EDGX Book at the order’s limit price, unless otherwise instructed by the User. The entire SWPB order will be cancelled back to the User immediately if at the time of entry there is an insufficient share quantity in the SWPB order to fulfill the displayed size of all Protected Quotations.]

(1[1]0) Destination Specific. Destination Specific is a routing option under which an order checks the System for available shares and then is sent to an away trading center or centers specified by the User.

(1[2]1) Post to Away. In addition to instructions to cancel an order back to a User or post to the EDGX Book following the routing process, as set forth above, a User may elect the Post to Away routing option. Post to Away is a routing option that routes the remainder of a routed order to and posts such order on the order book of a destination on the System routing table as specified by the User. Post to Away can be combined with the following routing strategies: ROUT, ROUX and ROUE.

(1[3]2) A User may select either Route To Improve (“RTI”) or Route To Fill (“RTF”) for the following routing strategies: ROOC, ROUE, ROUT, and ROUX. RTI

may route to multiple destinations at a single price level simultaneously while RTF may route to multiple destinations and at multiple price levels simultaneously.

(1[4]3) A User may designate their order for participation in the re-opening (following a halt, suspension, or pause) of a primary listing market (BATS, NYSE, Nasdaq, NYSE MKT, or NYSE Arca) if received before the re-opening time of such market. If shares remain unexecuted after attempting to execute in the re-opening process, they are either posted to the EDGX Book, executed, or routed to destinations on the System routing table.

Rule 11.16. Trading Halts Due to Extraordinary Market Volatility

(a)-(d) No change.

(e) Limit Up-Limit Down Mechanism

(1)-(4) No change

(5) Re-pricing and Cancellation of Interest. Depending on a User's instructions, the System shall re-price and/or cancel buy (sell) interest that is priced or could be executed above (below) the Upper (Lower) Price Band. When re-pricing resting orders because such orders are above (below) the Upper (Lower) Price Band, the Exchange will provide new timestamps to such orders. The Exchange will also provide new timestamps to resting orders at the less aggressive price to which such orders are repriced. Any resting interest that is re-priced pursuant to this Rule shall maintain priority ahead of interest that was originally less aggressively priced, regardless of the original timestamps for such orders.

(A)-(C) No change.

(D) Routable Orders. If routing is permitted based on a User's instructions, orders shall be routed away from the Exchange pursuant to Rule 11.11, provided that the System shall not route buy (sell) interest at a price above (below) the Upper (Lower) Price Band.

(1) Re-routing. When the Upper (Lower) Price Band adjusts such that the NBO (NBB) becomes executable, a routable buy (sell) Market or marketable Limit Order will be eligible to be re-routed by the Exchange if such order contains an Aggressive or Super Aggressive instruction.

(2) Routing strategy[ies] SWPA [and SWPB (together, "SWP")], as described in Rule 11.11(g), [are]is eligible for routing in accordance with the Plan as follows: the System will immediately cancel orders utilizing an SWPA routing strategy when an order to buy utilizing

an SWPA routing strategy has a limit price that is greater than the Upper Price Band or if a sell order utilizing an SWPA routing strategy has a limit price that is less than the Lower Price Band.
