\* Excludes Tier AA

An Options Market Maker may select class appointments to make markets in those classes during all trading sessions. All classes are placed within a specific tier according to national average daily volume (except for the AA tier) and assigned an “appointment weight” depending upon its tier location as set forth above. Appointment weights for each assigned class will be aggregated for each Market Maker ID used to trade to obtain the total number of Appointment Units. If the sum of appointments is a fractional amount, the total will be rounded up to the next highest whole Appointment Unit. Total quantity is determined by the highest quantity used at any point during the month. The Exchange will rebalance the tiers (excluding the “AA” tier) once each calendar quarter, which may result in additions or deletions to their composition and announces such rebalances pursuant to Exchange Rule 16.3 at least 10 business days before the rebalance takes effect. When a class changes tiers, it is assigned the appointment cost of that tier.
