

SECURITIES AND EXCHANGE COMMISSION  
(Release No. 34-82714; File No. SR-MRX-2018-05)

February 14, 2018

Self-Regulatory Organizations; Nasdaq MRX, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Amend INET Port Fees at Section II, C to Indicate Those Fees Are Not Prorated

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on February 9, 2018, Nasdaq MRX, LLC (“MRX” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend INET Port Fees at Section II, C to indicate those fees are not prorated.

The text of the proposed rule change is available on the Exchange’s Website at <http://nasdaqmrx.cchwallstreet.com/>, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in

Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to include language within the Schedule of Fees at Section II, C, entitled “INET Port Fees” to clarify that the port fees in this section are not subject to proration. Today, the Exchange does not prorate the pricing for these ports.

Background

The Exchange previously filed<sup>3</sup> to: (1) establish ports and gateways that members use to connect to the Exchange with the migration of the Exchange’s trading system to the Nasdaq INET architecture, and (2) amend the Schedule of Fees to adopt fees for those ports and gateways. The Exchange established fees for the following connectivity options that are available in connection with the Exchange’s trading system: Specialized Quote Feed (“SQF”),<sup>4</sup>

<sup>4</sup> SQF is an interface that allows market makers to connect and send quotes, sweeps and auction responses into the Exchange. Data includes the following: (1) Options Auction Notifications (e.g., opening imbalance, Flash, PIM, Solicitation and Facilitation or other information); (2) Options Symbol Directory Messages; (3) System Event Messages (e.g., start of messages, start of system hours, start of quoting, start of opening); (4) Option Trading Action Messages (e.g., halts, resumes); (5) Execution Messages (6) Quote Messages (quote/sweep messages, risk protection triggers or purge notifications).

SQF Purge,<sup>5</sup> Ouch to Trade Options (“OTTO”),<sup>6</sup> Clearing Trade Interface (“CTI”),<sup>7</sup> Financial Information eXchange (“FIX”),<sup>8</sup> FIX Drop,<sup>9</sup> and Disaster Recovery.<sup>10</sup> The Exchange proposes to add a clarifying sentence to make clear that port fees are assessed in full month increments and are not prorated, to avoid any confusion.

---

<sup>5</sup> SQF Purge is a specific port for the SQF interface that only receives and notifies of purge requests from the market maker. Dedicated SQF Purge Ports enable market makers to seamlessly manage their ability to remove their quotes in a swift manner.

<sup>6</sup> OTTO is an interface that allows market participants to connect and send orders, auction orders and auction responses into the Exchange. Data includes the following: (1) Options Auction Notifications (e.g., Flash, PIM, Solicitation and Facilitation or other information); (2) Options Symbol Directory Messages; (3) System Event Messages (e.g., start of messages, start of system hours, start of quoting, start of opening); (5) Option Trading Action Messages (e.g., halts, resumes); (6) Execution Messages; (7) Order Messages (order messages, risk protection triggers or purge notifications).

<sup>7</sup> CTI is a real-time clearing trade update message that is sent to a member after an execution has occurred and contains trade details. The message containing the trade details is also simultaneously sent to The Options Clearing Corporation (“OCC”). The information includes, among other things, the following: (i) The Clearing Member Trade Agreement or “CMTA” or “OCC” number; (ii) Exchange badge or house number; (iii) the Exchange internal firm identifier; and (iv) an indicator which will distinguish electronic and non-electronically delivered orders; (v) liquidity indicators and transaction type for billing purposes; (vi) capacity.

<sup>8</sup> FIX is an interface that allows market participants to connect and send orders and auction orders into the Exchange. Data includes the following: (1) Options Symbol Directory Messages; (2) System Event Messages (e.g., start of messages, start of system hours, start of quoting, start of opening); (3) Option Trading Action Messages (e.g., halts, resumes); (4) Execution Messages; (5) Order Messages (order messages, risk protection triggers or purge notifications).

<sup>9</sup> FIX Drop is a real-time order and execution update message that is sent to a member after an order been received/modified or an execution has occurred and contains trade details. The information includes, among other things, the following: (1) Executions; (2) cancellations; (3) modifications to an existing order (4) busts or post-trade corrections.

<sup>10</sup> Disaster Recovery ports provide connectivity to the exchange’s disaster recovery data center in Chicago to be utilized in the event the exchange has to fail over during the trading day. DR Ports are available for SQF, SQF Purge, Dedicated SQF, CTI, OTTO, FIX and FIX Drop.

## 2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,<sup>11</sup> in general, and furthers the objectives of Section 6(b)(5) of the Act,<sup>12</sup> in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest, by clearly specifying in Section II, C that the Exchange's pricing regarding ports is not prorated. The Exchange believes that its decision to not prorate these ports is consistent with the Act because prorating billing results in complexity and increased costs associated with the billing process. The Exchange notes that this proposal does not amend the Exchange's current billing practice.

### B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange will uniformly assess the fees in Section II, C to all MRX Members in a uniform manner.

### C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

## III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time

as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act<sup>13</sup> and subparagraph (f)(6) of Rule 19b-4 thereunder.<sup>14</sup>

A proposed rule change filed under Rule 19b-4(f)(6)<sup>15</sup> normally does not become operative prior to 30 days after the date of the filing. However, Rule 19b-4(f)(6)(iii)<sup>16</sup> permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the Exchange may clarify that the INET Port Fees in Chapter V, D will not be prorated to avoid any misunderstanding. The Exchange notes that adding language to clarify that the Exchange will not prorate the INET Port Fees in Section V, D does not significantly affect the protection of investors or the public interest because there is no substantive change to the manner in which the Exchange bills these services. The Commission believes that waiver of the 30-day operative delay is consistent with the protection of investors and the public interest. Accordingly, the Commission hereby waives the operative delay and designates the proposed rule change as operative upon filing.<sup>17</sup>

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such

<sup>14</sup> 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6)(iii) requires the Exchange to give the Commission written notice of the Exchange's intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

#### IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act.

Comments may be submitted by any of the following methods:

##### Electronic Comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>);  
or
- Send an e-mail to [rule-comments@sec.gov](mailto:rule-comments@sec.gov). Please include File Number SR-MRX-2018-05 on the subject line.
