Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to increase certain route-out fees set forth in Section II.A of the Schedule of Fees. Today, the Exchange charges all market participants route-out fees of \$0.96 per contract for orders in Non-Penny Symbols that are routed to away exchanges in connection with the Options Order Protection and Locked/Crossed Market Plan (the “Plan”). The Exchange now proposes to increase this fee to \$1.09 per contract for all market participant orders in Non-Penny Symbols that are routed to away exchanges in connection with the Plan. The Exchange believes that the proposed increase will help offset the costs associated with routing orders through the Plan, such as paying the transaction fees for such executions at other exchanges.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,<sup>3</sup> in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,<sup>4</sup> in particular, in that it provides for the equitable allocation of reasonable dues, fees, and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes that proposed increase in the route-out fees from \$0.96 to \$1.09 per contract for all market participant orders in Non-Penny Symbols is reasonable because it is

designed to help recoup costs associated with routing orders to away exchanges in connection with the Plan, such as paying the transaction fees for such executions at other exchanges. Furthermore, the Exchange notes that the proposed fees remain competitive with the fees of other options exchanges which, in addition to a fixed routing fee, assess the actual transaction fees.<sup>5</sup>

The Exchange believes that proposed increase in the route-out fees is equitable and not unfairly discriminatory because the Exchange will apply the same route-out fees to all similarly situated members.

**B. Self-Regulatory Organization's Statement on Burden on Competition**

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. In particular, the proposed increase to the route-out fees will apply equally to all market participant orders that are routed to away exchanges in connection with the Plan, and will help offset costs associated with routing orders via the Plan. Furthermore as noted above, the Exchange believes that its proposed fees remain competitive with another options exchange.

The Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its fees to remain competitive with other exchanges and with alternative trading systems that have been exempted from compliance with the statutory standards applicable to exchanges. Because competitors are free to modify their

<sup>5</sup> For example, CBOE C2 Exchange, Inc. ("C2") charges \$1.63 per routed contract for non-public customer, non-C2 market-maker orders in non-penny classes. See C2 Fees Schedule, Section 1.A (Transaction Fees) and Section 2 (Linkage Routing).

own fees in response, and because market participants may readily adjust their order routing practices, the Exchange believes that the degree to which fee changes in this market may impose any burden on competition is extremely limited. In sum, if the changes proposed herein are unattractive to market participants, it is likely that the Exchange will lose market share as a result. Accordingly, the Exchange does not believe that the proposed changes will impair the ability of members or competing order execution venues to maintain their competitive standing in the financial markets.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act,<sup>6</sup> and Rule 19b-4(f)(2)<sup>7</sup> thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
