4770. Compliance with Regulation NMS Plan to Implement a Tick Size Pilot

(a) – (c) No Change.

(d) Operation of Order Types and Order Attributes

This section sets forth Nasdaq's specific procedures for handling, executing, re-pricing and displaying of certain Order Types and Order Attributes applicable to Pilot Securities. Unless otherwise indicated, this section applies to orders in all three Test Group Pilot Securities.

(1) All Order Types. Any Order Type in a security of any of the Test Groups that requires a price and does not otherwise qualify for an exception, will not be accepted if it is in a minimum price increment other than \$0.05. This minimum price increment applies to repricing and rounding by the System, unless otherwise noted below.

Subject to the provisions below, if the entered limit price of an Order in a Test Group Three Pilot Security, entered through RASH, QIX, or FIX, locked or crossed a Protected Quotation and the NBBO changes so that the Order can be ranked closer to its original entered limit price, the price of the Order will be adjusted repeatedly in accordance with changes to the NBBO.

(2) Price to Comply Order. A Price to Comply Order in a Test Group Pilot Security will operate as described in Rule 4702(b)(1) except as provided under this paragraph. If a Price to Comply Order for a Test Group Three Pilot Security is partially executed upon entry and the remainder would lock a Protected Quotation of another market center, the unexecuted portion of the Order will be cancelled. If the Order is not executable against any previously posted orders on the Nasdaq Book, and the limit price of a buy (sell) Price to Comply Order in a Test Group Three Pilot Security would lock or cross a Protected Quotation of another market center, the Order will display at one minimum price increment below (above) the Protected Quotation, and the Order will be ranked on the Nasdaq Book at the current midpoint of the NBBO.

A Price to Comply Order in a Test Group Three Pilot Security entered through OUCH or FLITE may be adjusted in the following manner after initial entry and posting to the Nasdaq Book:

- If entered at a price that locked a Protected Quotation, and if the NBBO changes such that it can be ranked and displayed at the price of the Protected Quotation that it locked, the Price to Comply Order will be adjusted to rank and display at its original entered limit price.
- If entered at a price that crossed a Protected Quotation, and if the NBBO changes such that it can be ranked at the price of the Protected Quotation it crossed, the Price to Comply Order, based on the participant's choice, may either be (i) cancelled or (ii) adjusted to rank at the price of the Protected Quotation it crossed upon entry with its displayed price remaining unchanged.
- If, after being posted on the Nasdaq Book, the non-displayed price of a Price to Comply Order becomes locked or crossed by a Protected Quotation due to a change in the NBBO, or if the Price to Comply Order is at an impermissible price under Regulation NMS or the Plan and it cannot otherwise be adjusted as above, the Price to Comply Order will be cancelled.

(3) Non-Displayed Order. A Non-Displayed Order in a Test Group Pilot Security will operate as described in Rule 4702(b)(3) except as provided under this paragraph. A resting Non-Displayed Order in a Test Group Three Pilot security cannot execute at the price of a Protected Quotation of another market center unless the incoming Order otherwise qualifies for an exception to the Trade-at prohibition provided under Rule 4770(c)(3)(D). If the limit price of a buy (sell) Non-Displayed Order in a Test Group Three Pilot Security would lock or cross a Protected Quotation of another market center, the Order will be ranked on the Nasdaq Book at either one minimum price increment below (above) the National Best Offer (National Best Bid) or at the midpoint of the NBBO, whichever is higher (lower). If a resting [For a]Non-Displayed Order in a Test Group Three Pilot Security entered through RASH, QIX, or FIX[,] becomes locked or crossed by a Protected Quotation due to a change in the NBBO, or if [after being posted to the Nasdaq Book, the NBBO changes so that]the Non-Displayed Order is at an impermissible price under [would no longer be executable at its posted price due to the requirements of]Regulation NMS or the Plan, the Non-Displayed Order will be repriced to a price that is at either one minimum price increment below (above) the National Best Offer (National Best Bid) or at the midpoint of the NBBO, whichever is higher (lower) and will receive a new timestamp.

For a Non-Displayed Order in a Test Group Three Pilot Security entered through OUCH or FLITE, if after such a Non-Displayed Order is posted to the Nasdaq Book, the NBBO changes so that the Non-Displayed Order would no longer be executable at its posted price due to the requirements of Regulation NMS or the Plan, the Non-Displayed Order will be cancelled back to the Participant.

A Non-Displayed Order in a Test Group Three Pilot Security entered through OUCH or FLITE may be adjusted in the following manner after initial entry and posting to the Nasdaq Book:

- If entered at a price that locked a Protected Quotation, and if the NBBO changes such that it can be ranked at the price of the Protected Quotation that it locked, the Non-Displayed Order will be adjusted to rank at its original entered limit price.
- If entered at a price that crossed a Protected Quotation, and if the NBBO changes such that it can be ranked at the price of the Protected Quotation it crossed, the Order, based on the Participant's choice, may either be (i) cancelled or (ii) adjusted to rank at the price of the Protected Quotation it crossed.
- If entered at a price that locked or crossed a Protected Quotation, and if the NBBO changes such that it cannot be ranked at the price of the Protected Quotation it locked or crossed but can be ranked closer to its original limit price, the Non-Displayed Order will be adjusted to the new midpoint of the NBBO.
- If, after being posted on the Nasdaq Book, the Non-Displayed Order becomes locked or crossed by a Protected Quotation due to a change in the NBBO, or if the Non-Displayed Order is at an impermissible price under Regulation NMS or the Plan and it cannot otherwise be adjusted as above, the Non-Displayed Order will be cancelled.

(4) Post-Only Order. A Post-Only Order in a Test Group Pilot Security will operate as described in Rule 4702(b)(4) except as provided under this paragraph. For orders that are not attributable, if the limit price of a buy (sell) Post-Only Order in a Test Group Three Pilot Security would lock or cross a Protected Quotation of another market center, the Order will display at one minimum price increment below (above) the Protected Quotation, and the Order will be ranked on the Nasdaq Book at the current midpoint of the NBBO.

A Non-Attributable Post-Only Order in a Test Group Three Pilot Security entered through OUCH or FLITE may be adjusted in the following manner after initial entry and posting to the Nasdaq Book:

- If entered at a price that locked a Protected Quotation, and if the NBBO changes such that it can be ranked and displayed at the price of the Protected Quotation that it locked, the Post-Only Order will be adjusted to rank and display at its original entered limit price.
- If entered at a price that crossed a Protected Quotation, and if the NBBO changes such that it can be ranked at the price of the Protected Quotation it crossed, the Post-Only Order, based on the Participant's choice, may either be (i) cancelled or (ii) adjusted to rank at the price of the Protected

Quotation it crossed upon entry with its displayed price remaining unchanged.

- If, after being posted on the Nasdaq Book, the non-displayed price of a resting Post-Only Order becomes locked or crossed by a Protected Quotation due to a change in the NBBO, or if the Post-Only Order is at an impermissible price under Regulation NMS or the Plan and it cannot otherwise be adjusted as above, the Post-Only Order will be cancelled.

(5) – (10) No Change.

Commentary:

.01 – .13 No change.

[.14 Until December 12, 2016, the treatment of Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols in Test Group Three securities shall be as follows:

Following entry, and if market conditions allow, a Price to Comply Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO until such time as the Price to Comply Order is able to be ranked and displayed at its original entered limit price.

Following entry, and if market conditions allow, a Price to Display Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO until such time as the Price to Display Order is able to be ranked and displayed at its original entered limit price.

Following entry, and if market conditions allow, a Non-Displayed Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO up (down) to the Order's limit price.

Following entry, and if market conditions allow, the Post-Only Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO or the best price on the Nasdaq Book, as applicable until such time as the Post-Only Order is able to be ranked and displayed at its original entered limit price.]
